

*APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, Louis Spousta (Name of applicant)

of Tigard--Rt. 1 Box 374 (Mailing address)

State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Tualatin River (Name of stream) a tributary of Willamette River

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second. If one phase line 110 gal an hour or 7 1/2 h.p. (If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is irrigation (Irrigation, power, mining, manufacturing, domestic supplies, etc)

4. The point of diversion is located 4347.7 ft. S and 880.34 ft. W from the 1/4 corner on the N. line of Sec. 16, T25, R1W (Section or subdivision)

~~Plot is shown on my abstract which I will send if you wish to.~~

~~about 300 feet~~ (If preferable, give distance and bearing to section corner)

Enclosed is a separate copy describing property as per deed (If there is more than one point of diversion, each must be described. Use separate sheet if necessary) being within the E 1/2 of the NW 1/4 & the E 1/2 of SW 1/4 of Sec. 16 Tp. 25 (Give smallest legal subdivision) (N. or S.)

R. 1 W (E. or W.) W. M. in the county of Washington

5. The ~~See plot enclosed~~ Pipeline to be 270' to 2200' ft. (Main ditch, canal or pipe line) (Miles or feet) in length, terminating in the NE 1/4 of the SW 1/4 & the SE 1/4 of the NW 1/4 of Sec. 16 Tp. 25 (Smallest legal subdivision) (N. or S.)

R. 1 W (E. or W.) W. M., the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

Diversion Works— No Dam — Directly from River

6. (a) Height of dam None feet, length on top feet, length at bottom feet; material to be used and character of construction (Loose rock, concrete, masonry)

rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate Direct from river (Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description If one phase line is used--7 1/2 hp but if 3 phase line is available it will be a 10 hp (Size and type of engine or motor to be used, total head water to be lifted, etc)

*A different form of application is provided where storage works are contemplated **Application for permits to appropriate water for the generation of electricity, with the exception of municipalities must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

20617

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) No Canal feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water 20 feet; grade 2 feet fall per one thousand feet.

(c) Length of pipe, 270' to 2200' ft at intake, 4" in.; size at 75° ft. from intake 4" in.; size at place of use 3" in.; difference in elevation between intake and place of use, 302 ft. Is grade uniform? Yes Estimated capacity, See Note on Power available sec. ft.

8. Location of area to be irrigated, or place of use

| Township | Range E. or W. of Willamette Meridian | Section | Forty-acre Tract | Number Acres To Be Irrigated |
|--|---------------------------------------|---------------|--------------------------|------------------------------|
| Described on a separate sheet enclosed and attached to this copy | | | | |
| T28 | RIW | 16 | SE 1/4 SW 1/4 | 18 10.48 |
| " " | RIW | 16 | NE 1/4 SW 1/4 | 20 26.97 |
| " " | RIW | 16 | SE 1/4 SW 1/4 | 17 |
| " " | RIW | | SE 1/4 SW 1/4 | 2.63 |
| | | | | 408 |

(If more space required, attach separate sheet)

(a) Character of soil Willamette soil--medium

(b) Kind of crops raised grain & hay;—Previously,—Berries by irrigation.

Power or Mining Purposes—

9. (a) Total amount of power to be developed none theoretical horsepower.

(b) Quantity of water to be used for power _____ sec. ft.

(c) Total fall to be utilized _____ feet.

(d) The nature of the works by means of which the power is to be developed

electric pump

(e) Such works to be located in Note separate copy attached Sec. _____

Tp. _____, R. _____, W. M. _____

(f) Is water to be returned to any stream? NO

(g) If so, name stream and locate point of return _____

_____, Sec. _____, Tp. _____, R. _____, W. M. _____

(h) The use to which power is to be applied is irrigation for berries

(i) The nature of the mines to be served none

Application No. 26266

Property on which water is to be used is a part of that more explicitly described by applicant as follows:

DEED RECORD

Louis Spousta and Helen R. Spousta Book 185 page 247 (b)

All the following bounded and described real property situated in the County of Washington, State of Oregon, to-wit:

Beginning at a point on the section line 2.77 ch ins east of the quarter section corner of the north boundary of Section 16, Township 2 South of Range 1 West of the Willamette Meridian Washington County, Oregon, running thence east on section line 10.49 chains to a point on the section line; thence south parallel with the west boundary of said Section 16, 66.70 chains to the middle channel of the Tualatin River; thence down said channel to a point due south to the basin line corner; thence north 80 chains to the place of beginning, containing 100 acres, more or less.

Municipal or Domestic Supply—

10. (a) To supply the city of None

None County, having a present population of None
and an estimated population of None in 1951

(b) If for domestic use state number of families to be supplied None

(Answer questions 11, 12, 13, and 14 in all cases)

- 11. Estimated cost of proposed works, \$ None
- 12. Construction work will begin on or before None
- 13. Construction work will be completed on or before None
- 14. The water will be completely applied to the proposed use on or before None

Louis Spivack
(Signature of applicant)

Remarks: I have had grain & hay but wish to put berries in and thus if dry season would like to able irrigate. Plot shows the 40 acres to irrigated--I have also a copy of it on my abstract -- which I be glad to submit to you if you wish. At present there is one phase line thus will use a 7 1/2 hp unless a 3 phase line is avaiable then I could use a 10 hp. The drop to the river is between ~~28~~ to ~~26~~ feet.

PERMIT

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.501 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Tualatin River

The use to which this water is to be applied is Irrigation

If for irrigation, this appropriation shall be limited to 1.000 of one cubic foot per second or its equivalent for each acre irrigated and shall be subject to the following conditions: diversion of not to exceed 2 1/2 acre feet per year for each acre irrigated during the irrigation season of each year.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is

Actual construction work shall begin on or before and shall thereafter be prosecuted with reasonable diligence and be completed on or before

Complete application of the water to the proposed use shall be made on or before

WITNESS my hand this day of

19
