

Permit

Permit No. 11111

\*APPLICATION PERMIT

To appropriate the Public Waters of the State of Oregon

I, James Combs and wife, Wel... a Mc Martindale Combs. of Camas Valley, Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation none.

1. The source of the proposed appropriation is unnamed, a tributary of the middle fork of the Coquille River

2. The amount of water which the applicant intends to apply to beneficial use is 30,000 gal. a day during dry weather until creek goes dry, which generally does cubic feet per second. in August.

\*\*3. The use to which the water is to be applied is Irrigation

4. The point of diversion is located ... ft. and ... ft. from the corner of ... Stream enters property 94 rods west of the northeast corner of the Alston Martindale donation land claim, and runs in southwesterly direction. water to be pumped from stream about fifteen rods from the line where it enters property.

being within the NW 1/4 SE 1/4 of Sec 19, Tp. 29, R. 8 west, W. M., in the county of Douglas

5. The pipe line to be 600 ft. of sprinkling line pump at dam. in length, terminating in the ... of Sec. ... Tp. ... R. ... W. M., the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam 8 ft. feet, length on top 36 ft. feet, length at bottom 28 feet; material to be used and character of construction cement and lumber.

(b) Description of headgate overflow at top.

(c) If water is to be pumped give general description 1 1/2 in. cent. pump, 1 1/2 horse electric motor

Six or eight sprinklers will be used. They are supposed to throw seven gal. of water a minute. Will be portable.

\*A different form of application is provided where storage works are contemplated \*\*Application for permits to appropriate water for the generation of electricity, with the exception of municipalities must be made to the Hydroelectric Commission

**Canal System or Pipe Line—**

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ..... ft.; size at intake, ..... in.; size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

**8. Location of area to be irrigated, or place of use**

Township	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
29	8 West	19	NW $\frac{1}{4}$ SE $\frac{1}{4}$	15
<p>Beginning eighty rods west of the Northeast corner of the Alston Martindale donation land claim no 42 situated in township 29 south of range 8 west of the Willamette Meridian in Douglas County, Oregon, and running thence eighty rods south, thence eighty rods west, thence eighty rods north, thence eight rods east and containing forty acres more or less, situated in Douglas County, Oregon.</p>				

(If more space required attach separate sheet)

- (a) Character of soil **sand and loam**
- (b) Kind of crops raised **garden, lawn and pasture.**

**Power or Mining Purposes—**

- 9. (a) Total amount of power to be developed ..... (theoretical horsepower)
- (b) Quantity of water to be used for power ..... sec. ft.
- (c) Total fall to be utilized ..... feet.
- (d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in ..... (No. N. or S.)

Tp. .... R. .... W. M.

(f) Is water to be returned to any stream? ..... Yes or No

(g) If so, name stream and locate point of return

..... Sec. .... Tp. .... R. .... W. M.

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

**Municipal or Domestic Supply—**

10. (a) To supply the city of .....

..... County, having a present population of .....

(Name of)

and an estimated population of ..... in 19.....

(b) If for domestic use state number of families to be supplied .....

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$ 2,000 for dam and water system.

12. Construction work will begin on or before present date, as we have a temporary dam and will put in concrete foundation in spring if we find it necessary.

13. Construction work will be completed on or before .....

14. The water will be completely applied to the proposed use on or before Is being applied at present.

*James Combs*  
(Signature of applicant)

*Helmer Martindale Combs*

Remarks: This stream of water is from a ditch that was dug by my Grandfather, uncles and neighbors to drain their land back in the late 1800's and they have always used what water they needed to irrigate small gardens etc. Most years the ditch is completely dry by the last of August but if we find that a dam will store sufficient water to irrigate we would like to use it on fifteen acres.

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for ..... completion.

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before November 5, 1951.

WITNESS my hand this 5th day of October, 1951

*E. H. Humphrey*  
asst. STATE ENGINEER

PERMIT

STATE OF OREGON, }  
County of Marion. } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.046 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from an unnamed stream and reservoir to be constructed under Application No. R-26576, Permit No. R-1271.

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/20th of one cubic foot per second or its equivalent for each acre irrigated from direct flow and shall be further limited to a diversion of not to exceed 2 1/2 acre feet for each acre irrigated during the irrigation season of each year from direct flow and storage from Reservoir to be constructed under Permit No. R-1271, and shall be still further limited to a diversion of not to exceed 0.046 c.f.s.,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is September 12, 1951

Actual construction work shall begin on or before March 1, 1952 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1951

Complete application of the water to the proposed use shall be made on or before October 1, 1951

WITNESS my hand this 12th day of September 1951

*W. E. J. ...*  
STATE ENGINEER
