21516

Central Systems or Pipe Lines

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) 2 feet feet; width on bottom one foot feet; depth of water 6 inches feet; grade 20 feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line)
..... feet; width on bottom feet; depth of water feet;
grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; size at ft.
from intake in.; size at place of use in.; difference in elevation between
intake and place of use, ft. Is grade uniform? Estimated capacity
..... sec. ft.

8. Location of area to be irrigated, or place of use

(If more space required, attach separate sheet)

(a) Character of soil clay

(b) Kind of crops raised alfalfa and grass

Power or Mining Purposes—

9. (a) Total amount of power to be developed

(b) Quantity of water to be used for power see (1)

(c) Total fall to be utilized feet.

(d) The nature of the works by means of which the power is to

(e) Such works to be located in Legal Subdivision.

T.P. R. W.M.
(No N or S) (No E or W.)

(f) Is water to be returned to any stream? Yes or No

(g) If so, name stream and locate point of return

. Sec.

(b) The use to which power is to be applied is

Municipal or Domestic Supply

21516

10. (a) To supply the city of _____
_____, County, having a present population of _____
and an estimated population of _____ in 19_____.
(b) If for domestic use state number of families to be supplied _____ one
(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$ 200.00

12. Construction work will begin on or before completed

13. Construction work will be completed on or before completed

14. The water will be completely applied to the proposed use on or before
used in 1951

Ray Kiparich
(Signature of applicant)

Remarks: City gets water from springs in Byran Gulch, a tributary of
Canyon Creek, a tributary of John Day River, one tap overflow and leaks from
2 reservoirs. No one else uses this waste water or claims any interest in it.

The waste water, for which this application is made, consists of
such water that passes through the overflow pipe from the City's
Reservoir together with seepage from the same source. This water
is collected in a ditch below the reservoir and conveyed therefrom
to the lands described in this application.

STATE OF OREGON:

County of Marion

I do hereby verify that I have examined the foregoing application, together with the accompanying
data, and return the same for completion and correction.

In order to retain its priority, this application must be returned to the State Engineer's office
no later than before August 4th, 1952.

WITNESS my hand this 3rd day of July 1952

CHAS. J. STRICKLEY
By Ed K. Humphrey, Assistant State Engineer
Ed K. Humphrey

PERMIT

STATE OF OREGON,

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same,
SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use
and shall not exceed ~~.000~~ 0.135 cubic feet per second measured at the point of diversion from the
stream, or its equivalent in case of rotation with other water users, from ~~overflow and waste water~~
~~from Canyon City Reservoir~~

0.125

The use to which this water is to be applied is ~~irrigation and domestic~~, being ~~0.00~~ c.f.s.
for irrigation and 0.01 c.f.s. for domestic.

If for irrigation, this appropriation shall be limited to 1/40 of one cubic foot per
second or its equivalent for each acre irrigated and shall be further limited to a
diversion of not to exceed ~~1~~ acre feet per acre for each acre irrigated during the
irrigation season of each year, and shall also be limited to the water available at
the proposed point of diversion, and shall not carry with it the right to compel
the continuance of waste water.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is August 12, 1952

Actual construction work shall begin on or before November 28, 1953 and shall
thereafter be prosecuted with reasonable diligence and be completed on or before
October 1, 1954

Complete application of the water to the proposed use shall be made on or before
October 1, 1955

WITNESS my hand this 25th day of November, 1952.

John E. Stenckman
STATE ENGINEER
