

APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, Carl J. Mohr, otherwise known as Jack Mohr
(Name of applicant)
of Rte. #1, Box 487, Hood River, Oregon
(Mailing address)
State of Oregon, do hereby make application for a permit to appropriate the

following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation No

1. The source of the proposed appropriation is not named,
(Name of stream)

Hood River, a tributary of Hood River

2. The amount of water which the applicant intends to apply to beneficial use is 1.50
cubic feet per second. domestic use 0.01 c.f.s. -- pool 1.49 c.f.s.
(If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is domestic supply, fish and swimming pool
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 142 ft. S. and 2170 ft. E. from the
(N. or S) (E. or W)
corner of Sec. 22, T. 1 N., R. 9 E. W. M. is the location of the upstream
(Section or subdivision)
end of the flume. Domestic water will be appropriated about 100 ft.
upstream.

(If preferable give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary.)

being within the N.E. 1/4 of the N.E. 1/4 of Sec. 22, T. 1 N., R. 9 E.
(Give smallest legal subdivision)
W. M., in the county of Hood River
(E. or W.)

5. The flume and pipe line to be 100'
(Main ditch, canal or pipe line) (Miles or feet)
in length, terminating in the N.E. 1/4 of the N.E. 1/4 of Sec. 22, T. 1 N., R. 9 E.
(Smallest legal subdivision)

W. M., the proposed location being shown throughout on the accompanying map.
(E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam None feet, length on top None feet, length at base None
feet; material to be used and character of construction loose rock
timber flume
(Timber, concrete, etc., number and size of openings)
rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate the creek is controlled by the loose rock to
(Timber, concrete, etc., number and size of openings)
flow into the flume; approx 1/3 of the water escapes the flume.

(c) If water is to be pumped give general description No
(Size and type of pump)

(Size and type of engine or motor to be used, total head water is to be lifted)

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, is not made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 100 ft.; size at intake, 1/2 in.; size at from intake in.; size at place of use 1/2 in.; difference in elevation between intake and place of use, 30 ft. Is grade uniform? Yes Estimated capacity sec. ft.

8. Location of area to be irrigated, or place of use NW 1/4, NE 1/4, Sec. 22, T 1 N, R 9 E

Township North or South	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated

The Northwest quarter (NW 1/4) of the Northeast quarter (NE 1/4) of Section 22, Township 1 North Range 9 East of Willamette Meridian, together with rights-of-way for the roads now existing over and across the Southwest quarter (SW 1/4) of the northeast 1/4 of Section 15 and the Southwest quarter (SW 1/4) of the Northeast quarter (NE 1/4) of Section 22 Township 1 North, Range 9 East of Willamette Meridian, and the right to build further and additional roads as necessity may require.

(If more space required, attach separate sheet)

(a) Character of soil

(b) Kind of crops raised

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.
(Head)

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.
(Legal subdivision)

Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream?
(Yes or No)

(g) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

10. (a) To supply the city of _____

_____ County, having a present population of _____

and an estimated population of _____ in 19_____

(b) If for domestic use state number of families to be supplied two

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$ 100.00

12. Construction work will begin on or before September 1, 1952.

13. Construction work will be completed on or before September 1, 1953.

14. The water will be completely applied to the proposed use on or before September 1, 1953.

Cal J. Moh
(Signature of applicant)

Remarks: The pond has already been constructed, it being an abandoned mill pond put to private use as a swimming pool and fish pond. The existing wood box flume will continue to supply this pool. Water service to the home is the only new use. The flume is inserted in the creek bed and the water is guided into the flume by a loose rock crib. About 1/3 of the total flow escapes and continues down stream. The flume guides the water to the pool about 100 ft. from the point of diversion. From the pool, the water escapes to the stream. Domestic water will be diverted into a 3" pipe about 75 ft. upstream from the flume.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before September 15, 1952.

WITNESS my hand this 14th day of August 1952

RECEIVED
AUG 21 1952
STATE ENGINEER

CHAS. E. STRICKLIN
By Chris L. Wheeler, Assistant
STATE ENGINEER

PERMIT

STATE OF OREGON,

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.110 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from an unnamed stream

The use to which this water is to be applied is domestic, fish & swimming pool, at 0.01 cfs. for domestic and 0.1 cfs. for fish & swimming pool.

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer

The priority date of this permit is August 7, 1952

Actual construction work shall begin on or before March 31, 1953 and thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1953

Complete application of the water to the proposed use shall be made on or before October 1, 1953

WITNESS my hand this 31st day of March 1953
