

APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

MR. EARL + LILY CALDWELL

of R.I. Barber

State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Garrison Creek, a tributary of W. Fork Boisey Creek.

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second 0.21 (1/100 ft) + more

\*\*3. The use to which the water is to be applied is Domestic including irrigation of not to exceed 1/2 acre lawn + garden + stock

4. The point of diversion is located 1430 ft. N and 1190 ft. W from the S.E. corner of Sec 14 T. 2 N. R. H. W. M.

IRON PIPE at monument is N. 39° 40' W 1920' FROM S.E. corner Sec 14

being within the N.E. 1/4 of S.E. 1/4 of Sec. 14, Tp. 2 N. R. H. W. M., in the county of Washington

5. The Pipe line to be 600 ft in length, terminating on the line of S.E. 1/4 of S.E. 1/4 of Sec. 14, Tp. 2 N. R. H. W. M., the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam feet, length on top feet, length at bottom feet; material to be used and character of construction

(b) Description of headgate

(c) If water is to be pumped give general description 1000 gal per hr. Myers Pump 1 H.P. electric motor

Pump at termination of pipe line

\*A different form of application is provided where storage works are contemplated. \*\*Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission...

22155

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) \_\_\_\_\_ feet; width on bottom \_\_\_\_\_ feet; depth of water \_\_\_\_\_ feet; grade \_\_\_\_\_ feet fall per one thousand feet.

(b) At \_\_\_\_\_ miles from headgate: width on top (at water line) \_\_\_\_\_ feet; width on bottom \_\_\_\_\_ feet; depth of water \_\_\_\_\_ feet; grade \_\_\_\_\_ feet fall per one thousand feet.

(c) Length of pipe, 600 ft.; size at intake, 2 in.; size at 590 ft. from intake 1 1/2 in.; size at place of use 7/8 in.; difference in elevation between intake and place of use, 10 or 20 ft. Is grade uniform? YES Estimated capacity, \_\_\_\_\_ sec. ft.

8. Location of area to be irrigated, or place of use \_\_\_\_\_

| Township North or South | Range E. or W. of Willamette Meridian | Section | Forty-acre Tract | Number Acres To Be Irrigated |
|-------------------------|---------------------------------------|---------|------------------|------------------------------|
| 2 N.                    | H. W.                                 | 14      | SE 1/4 of SE 1/4 | 1/8 acre domestic            |
| 2 N.                    | H. W.                                 | 14      | S. W. of SE 1/4  | 1/8 acre domestic            |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |
|                         |                                       |         |                  |                              |

(If more space required, attach separate sheet)

(a) Character of soil \_\_\_\_\_

(b) Kind of crops raised \_\_\_\_\_

Power or Mining Purposes—

9. (a) Total amount of power to be developed \_\_\_\_\_ theoretical horsepower.

(b) Quantity of water to be used for power \_\_\_\_\_ sec. ft.

(c) Total fall to be utilized \_\_\_\_\_ feet.  
(Head)

(d) The nature of the works by means of which the power is to be developed \_\_\_\_\_

(e) Such works to be located in \_\_\_\_\_ of Sec. \_\_\_\_\_  
(Legal subdivision)

Tp. \_\_\_\_\_, R. \_\_\_\_\_, W. M. \_\_\_\_\_  
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream? \_\_\_\_\_  
(Yes or No)

(g) If so, name stream and locate point of return \_\_\_\_\_

\_\_\_\_\_, Sec. \_\_\_\_\_, Tp. \_\_\_\_\_, R. \_\_\_\_\_, W. M. \_\_\_\_\_  
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is \_\_\_\_\_

(i) The nature of the mines to be served \_\_\_\_\_

10. (a) To supply the city of \_\_\_\_\_  
\_\_\_\_\_ County, having a present population of \_\_\_\_\_  
and an estimated population of \_\_\_\_\_ in 19\_\_\_\_

(b) If for domestic use state number of families to be supplied 1 family of 4 people

- 11. Estimated cost of proposed works, \$ 600.00
- 12. Construction work will begin on or before June 1949
- 13. Construction work will be completed on or before Oct. 1949
- 14. The water will be completely applied to the proposed use on or before Nov. 1 1949

Carl Caldwell  
(Signature of applicant)  
Lucy Maxwell

Remarks: This is a description of the property from the deed where the house sits.

Part of section 14 T. 2 R. 10. P. 4. W. of Willamette Meridian  
Beginning at the intersection of the east line of the  
S.W. 1/4 of the S.E. 1/4 of Sec. 14 with the southerly  
boundary of County road, thence south along the East line  
of the S.W. 1/4 of S.E. 1/4 of Sec. 65 ft. thence west 50 ft.  
thence north parallel with the east line of the S.W. 1/4 of the  
S.E. 1/4 of said section to the southerly boundary of the  
County road, thence southerly along the southerly boundary  
of the County road to the point of beginning.  
One section is just over the line on the S.E. 1/4 of the  
S.E. 1/4 of Sec. 14. on property belonging to Carl Caldwell  
and Lucy Maxwell. (Another & further in volume)

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion.

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before June 8, 1953

WITNESS my hand this 8th day of April, 1953

PERMIT

STATE OF OREGON,

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.017 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Garrigus Creek

The use to which this water is to be applied is domestic, stock and irrigation, being 0.01 cfs for domestic and stock and 0.007 cfs for irrigation.

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is February 27, 1953

Actual construction work shall begin on or before August 21, 1954 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1955.

Complete application of the water to the proposed use shall be made on or before October 1, 1956.

WITNESS my hand this 21st day of August, 1953

Chas. E. Stricklin STATE ENGINEER
