3. The use to which the water is to be applied is irrigation of pasture & farm crops about 30 acres

4. The point of diversion is located 450 ft. South and 230 ft. East from the Center of Section 29 Town 17 S. Range 1 West South, Range 1 West Will. meridian. The center of Section 29-town 17 S. R. 1 West is marked by a Rock. The point of turning is 450 South from the center 230 feet East to two large maples trees.

being within the NW 1/4 of the South W. 1/4 of Sec. 29, Tp. 17 S. R. 1 West, W. M., in the county of Lane Oregon

5. The Pipe line to be 240 ft. in length, terminating in the North West 1/4 of Sec. 29, Tp. 17 South R. 1 West, W. M., the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

Diversion Works-

6. (a) Height of dam No Dam feet, length on top feet, length at bottom feet; material to be used and character of construction

(b) Description of headgate None

(c) If water is to be pumped give general description 3 in Fairbanks Morse 20 horse power electric motor. Water lift about 10 ft. to a 4 in main line

*A different form of application is provided where storage works are contemplated. **Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon. 3-22-4M

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

8. Location of area to be irrigated, or place of use

Township North or South	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
17 S	1 W	29	N.E. 1/4 SW 1/4	15
"	"	"	N.W. 1/4 SE 1/4	15

Property on which water is to be used is a part of that more explicitly described by applicant as follows:

The northeast quarter of the Southwest quarter of Section 29 in Township 17 South of range 1, West of the Willamette Meridian, in Lane County, Oregon.

beginning at the northwest corner of the Southeast quarter of Section 29 Township 17 South range 1 west of Willamette meridian and running thence South 32.30 chains to the meander line of the right bank of the McKenzie River, thence along the meander line according to the U.S. Government Survey thereof, South 70° East 12.38 chains; thence North 36.53 chains; thence West 11.63 chains to the place of beginning, containing 40 acres, more or less in Lane County, Oregon.

--	--	--	--	--

(If more space required, attach separate sheet)

(a) Character of soil *Sandy Loam River bottom*
 (b) Kind of crops raised *Hay, pasture 18 acres of orchard + nuts and garden beans etc.*
 Power or Mining Purposes— *for*

9. (a) Total amount of power to be developed *We use 21* theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.

Tp., R., W. M.

(f) Is water to be returned to any stream?
 (Yes or No)

(g) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

10. (a) To supply the city of _____
_____ County, having a present population of _____
and an estimated population of _____ in 19_____

(b) If for domestic use state number of families to be supplied _____

- 11. Estimated cost of proposed works, ~~_____~~ ^{irrigation equipment Pump & Pipe} \$3000.00
- 12. Construction work will begin on or before May 1st 1953
- 13. Construction work will be completed on or before June 1st 1953
- 14. The water will be completely applied to the proposed use on or before June 1st 1953

William George Swin
(Signature of applicant)
Lucy A. Swin

Remarks:

In winter or rainy seasons this creek fills with water and runs a small stream in summer only the hole of water about 1 block long and 40 ft wide remains, seems like it fills from spring in side or bottom of hole. Located all on our own farm.

State Engineers -
Dear Sirs -

We have a book of instruction from our Co. Agents Office and after reading it we are not sure if we need a water right on this water. If not will you kindly let us know. If we do please let us know and we will Thank you and Please accept this Application and send a bill for the charges. Respectfully Yours, William Geo. & Lucy Swin

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19_____

WITNESS my hand this _____ day of _____, 19_____

PERMIT

STATE OF OREGON,

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.375 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from unnamed along

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is April 8, 1953

Actual construction work shall begin on or before August 21, 1954 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1955

Complete application of the water to the proposed use shall be made on or before October 1, 1956

WITNESS my hand this 21st day of August, 1953

Chas. E. Stricklin
