Remarks: Am enclosing old water permit and map. This application is for the remainder of our place which is 5 acres.

Is it possible to exchange the 3 1/2 acres applied for on the south end of our place for the 3 A in the old permit that lie on the north end? We wish to do this because we need the water at the south end during July & Aug as the ground is more suitable for irrigation there at this season. See back of map for explanation of permit A
