

To Appropriate the Public Waters of the State of Oregon

I, Harvey E. Smith
(Name of applicant)
of Tillamook
(County)
State of Oregon, do hereby make application for a permit to appropriate the

following described public waters of the State of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation -----

1. The source of the proposed appropriation is Rock Creek
(Name of stream)
a tributary of the John Day River

2. The amount of water which the applicant intends to apply to beneficial use is 5.0
cubic feet per second. All from Rock Creek
(If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is Irrigation
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located ft. and ft. from the
(N. or S.) (E. or W.)
corner of The point of diversion, for portable pumping sets, will be from a point in Rock Creek
(Section or subdivision)
located to the west of a pipe monument which is N-70-37'-E a distance of 1689.2' from
section corner common to Sec's 27, 26, 34 and 35, T-2-S, R-22-E, WM, thence in a northerly
direction, continuously following the meander of Rock Creek to a point in the Creek which is
(If preferable, give distance and bearing to section corner)
located to the west of a pipe monument which is N-78-35'-E, a distance of 4,505.2' from a
(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)
section corner common to Sec's 16, 15, 21 and 22, T-2-S, R-22-S, WM,
being within the South limit SE 1/4, North limit SE 1/4 of Sec. 27 and 15, Tp. 2-S
(Give smallest legal subdivision) (N. or S.)

R. 22-E, W. M., in the county of Gilliam
(E. or W.)

5. The Total System portable sprinkler equipment to be 6,000 feet
(Main ditch, canal or pipe line) (Approximate feet)
in length, terminating in the of Sec., Tp.
(Smallest legal subdivision) (N. or S.)

R. W. M., the proposed location being shown throughout on the accompanying map.
(E. or W.)

DESCRIPTION OF WORKS

Diversion Works— None

6. (a) Height of dam feet, length on top feet, length at bottom
..... feet; material to be used and character of construction
(Loose rock, concrete, masonry,
rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate
(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description Centrifugal pumps with electric motors
(Size and type of pump)
different pump and motor units will be used as required by field location and size
(Size and type of engine or motor to be used, total head water to be lifted, etc.)

*A different form of application is provided where storage works are contemplated.
**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

2. The diameter of the pipe of this system is materially changed in size, stating miles from headgate. At headgate, width on top (at water line) _____ feet; width on bottom _____ feet.

_____ feet depth of water _____ feet grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate, width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe, _____ ft.; size at intake, _____ in.; size at _____ ft. from intake _____ in.; size at place of use _____ in.; difference in elevation between intake and place of use, _____ ft. Is grade uniform? _____ Estimated capacity, _____ sec. ft.

8. Location of area to be irrigated, or place of use

Township	Range E. or W. of Williams River	Section	Forty-acre tract	Number Acres To Be Irrigated

(If more space required, attach separate sheet)

(a) Character of soil Silt Loam and sandy loam
(b) Kind of crops raised Hay, grain and pasture.

Power or Mining Purposes— None

9. (a) Total amount of power to be developed _____ theoretical horsepower.
(b) Quantity of water to be used for power _____ sec. ft.
(c) Total fall to be utilized _____ feet.
(Head)
(d) The nature of the works by means of which the power is to be developed _____

(e) Such works to be located in _____ of Sec. _____, Tp. _____, R. _____, W. M.

(f) Is water to be returned to any stream? _____
(Yes or No)
(g) If so, name stream and locate point of return _____, Sec. _____, Tp. _____, R. _____, W. M.

(h) The use to which power is to be applied is _____
(i) The nature of the mines to be served _____

1. (a) Name of applicant _____
 (b) Name of landowner _____
 and an authorized person _____
 (c) Name of person to be supplied _____

- 11. Estimated cost of proposed work \$10,000
- 12. Construction work will begin on or before Immediately
- 13. Construction work will be completed on or before September 1, 1963
- 14. The water will be completely applied to the proposed use on or before September 1, 1965

 (Signature of applicant)

Remarks: This application covers lands which have no water right.
 The numerous fields are located adjacent to Rook Creek, or with in reasonable distances
 from the creek, so that irrigation by sprinkler equipment is feasible.
 Due to the long distance of creek involved and the many fields, the number of pumping
 units and pump sites will vary from time to time depending on crops and season.
 Electric power will be used to operate the pump units.

STATE OF OREGON, }
 County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19 _____

WITNESS my hand this _____ day of _____, 19 _____

The State Engineer hereby approves the application and do hereby grant the same, subject to the following conditions:

The water to be appropriated shall be of such quality which can be applied to beneficial use and shall not exceed 1.5 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Book Creek

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/40 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 1 acre foot per acre for each acre irrigated during the irrigation season of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is August 3, 1953

Actual construction work shall begin on or before March 12, 1955 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1955

Complete application of the water to the proposed use shall be made on or before October 1, 1956

WITNESS my hand this 12th day of March

Chas. E. Stricklin
STATE ENGINEER

Permits for power development are subject to the payment of annual fees as provided in sections 1 and 2, chapter 74, Oregon Laws 1933.
