

Canal System as Proposed

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

8. Location of area to be irrigated, or place of use

Township North or South	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
8 S.	46 E.	7	SW $\frac{1}{4}$ of the SE $\frac{1}{4}$	6
Note: This is for supplemental water.				
<p>The Southwest quarter (SW$\frac{1}{4}$) of the Southeast quarter (SE$\frac{1}{4}$) of Section Seven (7), Township Eight (8) South of Range Forty-six (46) East of the Willamette Meridian: EXCEPTING therefrom a certain tract of three acres of land more or less, off the southwest corner of said above described land, said excepted tract being described as commencing at the southwest corner of the Southwest quarter (SW$\frac{1}{4}$) of the Southeast quarter (SE$\frac{1}{4}$) of said Section Seven (7), and running thence east five hundred feet; thence in a northwesterly direction seven hundred seventy-nine (779) feet to the one half section line running North and South through said Section Seven (7); thence south five hundred eighteen (518) feet to the place of beginning.</p>				

(If more space required, attach separate sheet)

(a) Character of soil Clay-loam

(b) Kind of crops raised Hay, grain and pasture

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.
(Head)

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.
(Legal subdivision)

Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream?
(Yes or No)

(g) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

- 10. Estimated population of _____
- 11. _____
- 12. _____ number of families to be supplied _____
- 13. _____
- 14. The water will be completely applied to the proposed use on or before See Remarks

Melvin Shock
 (Signature of applicant)

Remarks: This ditch has been constructed by previous owners and the water has been used for irrigation for an unknown number of years.

STATE OF OREGON, }
 County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____ correction.

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before December 21, 1953.

WITNESS my hand this 23rd day of October, 1953.

 Chris L. Wheeler, Assistant

PERMIT

I have examined the foregoing application and do hereby grant the same, SUBJECT TO MINIMUM RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.15 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from unnamed slough

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/40 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is September 14, 1953

Actual construction work shall begin on or before January 22, 1955 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1955

Complete application of the water to the proposed use shall be made on or before October 1, 1956

WITNESS my hand this 22nd day of January, 1954

Chas. E. Stricklin STATE ENGINEER
