"Portion of the East half of Southwest quarter of Sec. 17, T. 1 N., R. 13 E. W. M., described as follows: Beginning on the East line of S¹/₂ Sec. 17, 4128 feet South of 2 sec. cor. between Secs. 8 & 17; thence along East line, South 586 2/3 feet; thence West 1188 feet, more or less, to the center of county road; thence Northerly along said county road, 586 2/3 feet, more or less, to the South line of property described as being South 4128 feet from the North boundary of said Sec. 17; thence East 1188 feet, more or less, to the point of beginning. The spring from which the water is to be appropriated, flows into a ravine, which is tributary to Mill Creek, only during the winter and early spring season, then ceases to reach that stream during the summer or dry season. Thus, it can be regarded as only a part time tributary to Mill Creek, and this would be during the season when irrigation is not in operation.
