Permit No. 22728

APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, Mantan A. Carl of Pt # 1 Hubbard State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is unnamed drainage ditch & Reservoir, a tributary of Pudding River. 2. The amount of water which the applicant intends to apply to beneficial use is 0.875 cubic feet per second.

**3. The use to which the water is to be applied is Irrigation.

4. The point of diversion is located ft. and ft. from the corner of At any point where unnamed drainage ditch touches property herein

(see map of App. No. 14985) being within the of Sec. 10, 3, Tp. 5 S R. 1 W, W. M., in the county of Marion

5. The pipe line to be 2000 in length, terminating in the SW 1/4 SE 1/4 of Sec. 3, Tp. 5 S R. 1 W W. M., the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam None feet, length on top feet, length at bottom feet; material to be used and character of construction

(b) Description of headgate

(c) If water is to be pumped give general description 4" x 3" cent. pump 480 gpm; 25 HP electric motor; Total head = 40 ft 40 sprinklers

*A different form of application is provided where storage works are contemplated. **Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission.

22728

Canal System or Pipe Line

7. (a) Cross-sections at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe, 2000 ft.; size at intake, 6 in.; size at 600 ft. from intake 4 in.; size at place of use 4 in.; difference in elevation between intake and place of use, 40 ft. Is grade uniform? Yes Estimated capacity, 480 sec. ft.

8. Location of area to be irrigated, or place of use 70 acres

Township	Range	Section	Forty-acre Tract	Number Acres To Be Irrigated
55	1W	3	SE 1/4 SE 1/4	5
			SW 1/4 SE 1/4	12
			NE 1/4 SE 1/4	13.3
			NW 1/4 SE 1/4	13.3
			SE 1/4 NE 1/4	19.5
			SW 1/4 NE 1/4	7.47
				70

(If more space required, attach separate sheet)

(a) Character of soil Willamette silt loam; pat

(b) Kind of crops raised general field crops; pastures

Power or Mining Purposes—

9. (a) Total amount of power to be developed _____ theoretical horsepower.

(b) Quantity of water to be used for power _____ sec. ft.

(c) Total fall to be utilized _____ feet.

(d) The nature of the works by means of which the power is to be developed _____

(e) Such works to be located in _____ of Sec. _____

Tp. _____, R. _____, W. M. _____

(f) Is water to be returned to any stream? _____

(g) If so, name stream and locate point of return _____

_____, Sec. _____, Tp. _____, R. _____, W. M. _____

(h) The use to which power is to be applied is _____

(i) The nature of the mines to be served _____

22728

Application No. 25383 for a permit to appropriate water from an unnamed drainage ditch as shown by an accompanying map is merely to have it as a matter of record that the said ditch constructed during September 1950 was to channel seepage water which originated and disappeared without following any channel natural or otherwise or without flowing off the property.

The collection point for the water is 300' East and 40' North of the Southeast corner of the John M. Purvine Donation Land Claim No. 60. The newly constructed ditch runs approximately 2600' from the collection point in a Southwesterly direction along the lower edge of the upland bank to the west edge of the property, and carries some seepage from adjoining property; also the new ditch runs approximately 1200' from the collection point in a Northeasterly direction along the lower edge of the upland bank and will supply some water.

A drainage ditch 900' long constructed about 1928 runs from the northeast edge of the property in a Southwesterly direction along the lower edge of the upland. The two ditches were joined by 27" culvert tile during September 1951 to carry heavy winter flows of water.

TRACT NO. 3 : Beginning at the southeast corner of the Donation Land Claim of John M. Purvine and wife, it being Claim No. 40, lying in Sections 3 and 4, Township 5 South, Range 1 West of the Willamette Meridian; running thence west 15 chains; thence North 20 chains; thence East 15 chains; thence South 20 chains to the place of beginning, containing 30 acres, more or less, land purchased by Fred Zurinden from Willamette Falls, etc. recorded in Vol. 100, Page 243 of the records, situated in the County of Marion, State of Oregon. (30 acres)

Remarks:

TRACT NO. 4 : Beginning at a point 20 chains North and 10 chains West of the southeast corner of the Donation Land Claim of John M. Purvine and wife in Township 5 South Range 1 West of the Willamette Meridian in Marion County, Oregon, said beginning point being the Southeast corner of W. Miller's land, and running thence North 0° 15' East 20 chains to the southeast corner of land owned by Robt. France; thence East 20 chains to an iron pipe; thence South 0° 45' West 20 chains; thence West 20 chains to the place of beginning; save and except therefrom 20 feet along the entire East and North sides reserved for road. (20 acres)

STATE OF OREGON,
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____ attaching thereto plans and specifications

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before March 22 ⁵⁴ January 20, 19 54

Went into my hand this 20th day of January, 19 54

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.875 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from an unnamed drainage ditch and reservoir to be constructed under Application No. R-25382, Permit No. R-1584.

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated from direct flow and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year from direct flow and storage from reservoir to be constructed under Permit No. R-1584.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is October 23, 1950

Actual construction work shall begin on or before April 30, 1955 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1956

Complete application of the water to the proposed use shall be made on or before October 1, 1957

WITNESS my hand this 30th day of April, 1954
Chas. E. Stricklin
STATE ENGINEER
