Remarks: Due to the fact I was unable to ~~get~~ the right to take this water earlier, I drilled a well on the Rogue River bottom and installed a pump and built a 3350 gallon concrete reservoir as indicated on map with a 2" pipe line from pump and hooked onto the present house as indicated. This well water is not too good and will now be used as a standby and for irrigation. As I plan on building 9 houses doubt if I can complete them before 1960, and will put in a temporary 1" line from headgate to reservoir for the time being.
