

APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, L. C. Wampler

of Rout #6 P.O. Box 201 Salem, Oregon

State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation Private -

1. The source of the proposed appropriation is Wampler Spring and natural drainage of Spring Mt. (Harrison Mt.) a tributary of Sinka on my land.

2. The amount of water which the applicant intends to apply to beneficial use is Variable See Remarks. cubic feet per second.

**3. The use to which the water is to be applied is Irrigation, Domestic & Stockwater

4. The point of diversion is located along the entire length of my intercepter (or drain) ditch as indicated on map attached. The Wampler spring is located South 2900 feet and 780 feet west of the NE Cor. of Sec. 25 T. 36 S. R. 6 E. W. M. in Mammoth Co. Ore.

Interceptor (drainage) ditch is located in the central part of the SE 1/4 of NE 1/4, NE 1/4 of SE 1/4, Sec. 25 T. 36 S. R. 6 E. W. M.

The Wampler spring

being within the NE 1/4 of SE 1/4 of Sec. 25, Tp. 36

R. 6, W. M., in the county of Mammoth.

5. The Main ditch is to be 1/2 mile in length, terminating in the (Turnout) NE 1/4 of SE 1/4 of Sec. 25, Tp. 36

R. 6, W. M., the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam feet, length on top feet, length at bottom feet; material to be used and character of construction

rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate 16" dia. Calco

(c) If water is to be pumped give general description Gravity

(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

*A different form of application is provided where storage works are contemplated. **Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) 12 to 30 feet; width on bottom 6 to 20 feet; depth of water Variable feet; grade Level feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe, _____ ft.; size at intake, _____ in.; size at _____ ft. from intake _____ in.; size at place of use _____ in.; difference in elevation between intake and place of use, _____ ft. Is grade uniform? _____ Estimated capacity, _____ sec. ft.

8. Location of area to be irrigated, or place of use _____

Township North or South	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
36 South	6 East	25	SE ⁴ of NE ⁴	17.1
"	"	"	NE ⁴ of SE ⁴	10.0

(If more space required, attach separate sheet)

(a) Character of soil Tule Peat

(b) Kind of crops raised Rotated - (Oats & Barley and grasses)

Power or Mining Purposes—

9. (a) Total amount of power to be developed _____ theoretical horsepower.

(b) Quantity of water to be used for power _____ sec. ft.

(c) Total fall to be utilized _____ feet.

(Head)

(d) The nature of the works by means of which the power is to be developed _____

(e) Such works to be located in _____ of Sec. _____

(Legal subdivision)

Tp. _____, R. _____, W. M. _____

(No. N. or S.)

(No. E. or W.)

(f) Is water to be returned to any stream? _____

(Yes or No)

(g) If so, name stream and locate point of return _____

_____, Sec. _____, Tp. _____, R. _____, W. M. _____

(No. N. or S.)

(No. E. or W.)

(h) The use to which power is to be applied is _____

(i) The nature of the mines to be served _____

10. (a) To supply the city of Proposed Water
Water County, having a present population of Proposed
(Name of) and an estimated population of Variable in 19_____

(b) If for domestic use state number of families to be supplied Variable

(Answer questions 11, 12, 13, and 14 in all cases)

- 11. Estimated cost of proposed works, \$ Conal \$ 2000⁰⁰
- 12. Construction work will begin on or before Has been completed for 5 or more yrs.
- 13. Construction work will be completed on or before _____
- 14. The water will be completely applied to the proposed use on or before The applied for

water has always flowed onto this land area. The meter that should use the Domestic should be constructed within 24 years.
L.C. Wampler
(Signature of applicant)

Remarks: At the Wampler spring there has always been a seepage and when I constructed the interceptor canal I opened up a spring and have used the water on my land ever since. The drainage water from Aspiz (Mt Harriman) has always drained onto my land and since I reclaimed this area I have used the entire flow of the combined applied for water during the time May 1 - Oct. 1 each year. The flow would average May 3 1/2 sec. ft. June 2 1/2 Sec. ft., July, Aug. Sept. 1/2 Sec. ft. My method of application thus far is to close the north end of the canal at the bridge and divert from the canal at the Headgate. (See sketch). I propose to top the canal at 2 or more other points along the canal.

Signed by L.C. Wampler

STATE OF OREGON }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19_____

WITNESS my hand this _____ day of _____, 19_____

PERMIT

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.329 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Wampler Spring

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is August 18, 1954

Actual construction work shall begin on or before February 21, 1956 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1956.

Complete application of the water to the proposed use shall be made on or before October 1, 1957.

WITNESS my hand this 21st day of February, 1955
