Canal System or Pipe Line—

(h) At _____ miles from head gate: width on top (at water line) _____
 _____ feet; width on bottom _____ feet; depth of water _____ feet;
 grade _____ feet fall per one thousand feet.

(c) Length of pipe, 1900 ft.; size at intake, 1" in.; size at _____ ft. from intake _____ in.; size at place of use 1" in.; difference in elevation between intake and place of use, 80' ft. Is grade uniform? yes Estimated capacity, 0.02 sec. ft.

8. Location of area to be irrigated, or place of use _____

[illegible]

(If more space required, attach separate sheet)

(a) Character of soil.

(b) Kind of crops raised

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.
(Head)

(d) *The nature of the works by means of which the power is to be developed.*

(e) Such works to be located in _____ of Sec. _____
(Legal subdivision)

Tr. _____, *R.* _____, *W. M.* _____
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream? Yes
(Yes or No)

(g) If so, name stream and locate point of return _____

....., *Sec.*, *Tp.* (No. N. or S.), *R.* (No. E. or W.), *W. M.*

(h) The use to which power is to be applied is _____

(i) *The nature of the mines to be served*

10. (a) To supply the city of _____
 _____ County, having a present population of _____
 (City and Co) and an estimated population of _____ in 19____

(b) If for domestic use state number of families to be supplied _____ 2

(Check questions 11, 12, 13, and 14 as applicable)

11. Estimated cost of proposed works, \$ 850.00 - work is completed

12. Construction work will begin on or before _____ completed

13. Construction work will be completed on or before _____ completed

14. The water will be completely applied to the proposed use on or before _____ 18 19____

Orville C. Harker

H. A. Harker
 (Signature of Applicant)

Remarks: During the winter months, due to surface flow, there is considerably more water than is applied for but during the summer season there is insufficient flow from the spring to furnish the amount applied for, a concrete Reservoir holding 400 gallons has been constructed 20' from the spring to furnish storage for the diminished summer flow. This system has been in use for past seven years.

STATE OF OREGON }
 County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19____.

WITNESS my hand this _____ day of _____, 19____.

STATE ENGINEER

PERMIT

STATE OF OREGON, }
County of Marion, }

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.02 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Unnamed Spring

The use to which this water is to be applied is domestic

If for irrigation, this appropriation shall be limited to - - - of one cubic foot per second or its equivalent for each acre irrigated.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is December 17, 1954

Actual construction work shall begin on or before February 21, 1956 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1956

Complete application of the water to the proposed use shall be made on or before October 1, 1957

WITNESS my hand this 21st day of February, 1955
