Remarks:

Part of the lands described in this application were allowed a vested right in the determination of the relative rights for the use of the waters of the Crooked River and its tributaries in the name of the Ochoco and Rye Grass Irrigation Company, which lands were later included in the Ochoco Irrigation District and their permits for the use of the waters thereon. To my knowledge these lands have not been irrigated as set out in the Decree or allowed in the irrigation district permits since the reduction of irrigable acreage of the Ochoco Irrigation District to approximately 8500 acres in the early 1930's. Therefore it is my belief that any rights which may have existed on these lands have been lost by abandonment and non-use. It is the intent of this application to obtain a new appropriation and right for the irrigation of these lands.

Above Remarks approved by me as representative of applicants.
