

APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, Gilbert Lawson, of Prineville, State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Polly Creek, a tributary of Cohozo Creek, a tributary of Crooked River.

2. The amount of water which the applicant intends to apply to beneficial use is 1000 cubic feet per second.

**3. The use to which the water is to be applied is Irrigation.

4. The point of diversion is located 1020 feet South 40 de' West from the North corner of Section 35, Township 24 N., Range 17 E., W. M., in the county of Crook.

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the NE 1/4 of Sec. 35, 35, Tp. 24, R. 17 E., W. M., in the county of Crook.

5. The main ditch, canal or pipe line to be 1500 in length, terminating in the NE 1/4 of Sec. 35, Tp. 24, R. 17 E., W. M., the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam 12 inches, length on top 20 feet, length at bottom 20 feet; material to be used and character of construction concrete.

(b) Description of headgate concrete box 30" wide 24" high.

(c) If water is to be pumped give general description

*A different form of application is provided where storage works are contemplated. **Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) 30" feet; width on bottom 30" feet; depth of water 12" feet; grade 1 feet fall per one thousand feet.

(b) At 1/8 miles from headgate: width on top (at water line) 30 inches feet; width on bottom 30 inches feet; depth of water one feet; grade 1/10 feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

8. Location of area to be irrigated, or place of use

Township	Range W.M.	Section	Forty-acre Tract	Number Acres To Be Irrigated
14 S	17 E	35	NENW	20
			SESW	7

(If more space required, attach separate sheet)

(a) Character of soil sandy loam
 (b) Kind of crops raised alfalfa

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.
 (b) Quantity of water to be used for power sec. ft.
 (c) Total fall to be utilized feet.
 (d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.
(Legal subdivision)

Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream?
(Yes or No)

(g) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

Municipal or Domestic Supply

10. (a) To supply the city of _____

_____ County, having a present population of _____

and an estimated population of _____ in 19____.

(b) If for domestic use state number of families to be supplied _____

~~(Insert counties N, S, E, and W in all cases)~~

11. Estimated cost of proposed works, \$ _____

12. Construction work will begin on or before _____ has been completed

13. Construction work will be completed on or before _____

14. The water will be completely applied to the proposed use on or before _____ has been applied

The applicant and his family have owned and occupied the above property for more than 50 years. For more than 50 years last past continuously within the knowledge of applicant the above described premises have been reclaimed and irrigated annually

(Signature of applicant)

Gilbert Lawson

Remarks: The dam now in place is an concrete structure which replaced and rock dam. The concrete dam was placed in Polly Creek by the Game Commission with the consent of the applicant: 12 inch boards are placed on top of the dam to divert the water for irrigation. When there is no irrigation the Boards are removed.

The irrigated lands are irrigated from a ditch running Northwesterly from the diversion point for 750 feet and also from a ditch commencing at the diversion point and running Easterly for 250 feet.

The land are immediately adjacent to the Collico reservoir and are the lands below the said ditches and above the contour line at 3175 being the highwater line of the Reservoir when filled to capacity.

County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 194_____

WITNESS my hand this _____ day of _____, 194_____

STATE ENGINEER

PERMIT

STATE OF OREGON,
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.675 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Polly Creek

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/40 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4 acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is December 2, 1954

Actual construction work shall begin on or before April 21, 1956 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1957

Complete application of the water to the proposed use shall be made on or before October 1, 1956

WITNESS my hand this 21st day of April 1955

Louis A. Stanley
STATE ENGINEER

Permits for power development are subject to the payment of annual fees as provided in sections 1 and 2, chapter 74, Oregon Laws 1933.
