

APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, RALPH DEWEY (Name of applicant)

of Route 2, ~~Forest~~ ONTARIO (Mailing address)

State of Idaho OREGON, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is a slough, carrying waste water, flowing easterly across S 1/2 of Sec. 9, Twp. 17 S., R. 47 (Name of stream), a tributary of

2. The amount of water which the applicant intends to apply to beneficial use is one cubic feet per second.

(If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is Irrigation (Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 316 ft. S. and 10 ft. W. from the SW corner of SE 1/4 NE 1/4, Sec. 9, Twp. 17 S., R. 47, being in NE 1/4 NE 1/4 SW 1/4, Sec. 9, Twp. 17 S., R. 47.

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the NW 1/4 SE 1/4 of Sec. 9, Twp. 17 S., R. 47 (Give smallest legal subdivision)

17 S., W. M., in the county of Malheur

5. The Main Ditch to be 1500 feet in length, terminating in the SW 1/4 SW 1/4 NW 1/4 of Sec. 10, Twp. 17 S., R. 47, E. W. M., the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam feet, length on top feet, length at bottom feet; material to be used and character of construction

The dam will be rock and brush not over 3 feet high, just enough to turn the water into the ditch.

(b) Description of headgate (Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description (Size and type of pump)

(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) 3' 6" feet; width on bottom 16" feet; depth of water about 4" feet; grade 1 1/2" feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe, _____ ft.; size at intake, _____ in.; size at _____ ft. from intake _____ in.; size at place of use _____ in.; difference in elevation between intake and place of use, _____ ft. Is grade uniform? _____ Estimated capacity, _____ sec. ft.

8. Location of area to be irrigated, or place of use _____

Township North or South	Range E or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
17	47	9	SE 1/4 NE 1/4	30
17	47	10	SW 1/4 NW 1/4	10

(If more space required, attach separate sheet)

(a) Character of soil _____

(b) Kind of crops raised _____

Power or Mining Purposes—

9. (a) Total amount of power to be developed _____ theoretical horsepower.

(b) Quantity of water to be used for power _____ sec. ft.

(c) Total fall to be utilized _____ (Head) _____ feet.

(d) The nature of the works by means of which the power is to be developed _____

(e) Such works to be located in _____ of Sec. _____ (Legal subdivision)

Tp. _____, R. _____, W. M. _____ (No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream? _____ (Yes or No)

(g) If so, name stream and locate point of return _____

_____ Sec. _____, Tp. _____, R. _____, W. M. _____ (No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is _____

(i) The nature of the mines to be served _____

Municipal or Domestic Supply

10. (a) To supply the city of _____
_____ County, having a present population of _____
(Name of) _____
and an estimated population of _____ in 19____.

(b) If for domestic use state number of families to be supplied _____

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$ 200.00 _____

12. Construction work will begin on or before WAS COMPLETED IN MARCH 1940

13. Construction work will be completed on or before Presently completed in 1940

14. The water will be completely applied to the proposed use on or before _____

Applied in 1953

(Signature of Applicant)

Remarks: This waste water arises from irrigation of surrounding land
and flows into the slough. From thence it flows into a drainage canal
of the Payette-Oregon Slope Irrigation Ditch. The flow is irregular from
morning to night and of greatest value for pasture irrigation.

The polygon shown on map in SE 1/4, Sec. 9, is gravel pit owned by State
Of Oregon. I have the right from the State Highway Commission to put in
dam and ditch. On the map the broken line indicates the slough; the parallel
solid lines running from slough indicate my ditch.

STATE OF OREGON }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompany-
ing maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with cor-
rections on or before _____, 19____.

WITNESS my hand this _____ day of _____, 19____.

STATE ENGINEER

PERMIT

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.0 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Slough

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/10 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year, and shall also be limited to the water available at the proposed point of diversion and shall not carry with it the right to compel the continuance of the waste water,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is December 13, 1954

Actual construction work shall begin on or before May 20, 1956 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1957.

Complete application of the water to the proposed use shall be made on or before October 1, 1958.

WITNESS my hand this 20th day of May, 1955.
