

APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, A. A. Anderson (Name of applicant) of Box #184 (Mailing address) Oregon State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

- 1. The source of the proposed appropriation is Ash Swale & Reservoir (Name of stream), a tributary of Salt Creek.
2. The amount of water which the applicant intends to apply to beneficial use is .04 for irrig. cubic feet per second. and stored water for supplemental irrigation. (If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is Irrigation & Supplemental Irrigation. (Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 29 Ch. S. and 3 Ch. E from the NW corner of Enos C. Williams D.L.C. #45, on the E. bank of Ash Swale, an' being 100' S. from the S.W. Cor of Lot 3, Blk 7, O.T. of Amity. (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary.)

being within the NW 1/4 NE 1/4 of Sec. 29 T. 5 S. R. 4 W. M., in the county of Yamhill (Give smallest legal subdivision)

5. The Pipeline to be 300' in length, terminating in the Block #5 Smith & Phillips Add. of Sec. 29 T. 5 S. R. 4 W. M., the proposed location being shown throughout on the accompanying map. (Main ditch, canal or pipe line) (Smallest legal subdivision)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam 7 feet, length on top 48 feet, length at bottom 40 feet; material type used and character of construction Compacted impervious clay core with columnar basalt blanket over and around dam and wasteway and stream bank (Use rock, concrete, etc., wasteway over or around dam)

(b) Description of headgate Concrete and columnar basalt rock with tamped clay around 30" C.I.P. 20' long located on West end of dam (Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description 1/4 H.P. Electric (Size and type of pump)

50' head 1 1/2" Suction and 1 1/2" Main-line. (Size and type of engine or motor to be used, total head water is to be lifted, etc.)

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 300 ft.; size at intake, 1 1/2" in.; size at 150 ft. from intake 1 1/2" in.; size at place of use 1" in.; difference in elevation between intake and place of use, 50 ft. Is grade uniform? Yes Estimated capacity, .04 sec. ft.

8. Location of area to be irrigated, or place of use

Township North or South	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
5S	4 W.	29	NW 1/4 NE 1/4	1.8 Primary & Supplemental
			NW 1/4 NE 1/4	1.8 "
			SW 1/4 NE 1/4	0.6 "
				4.2 Acres Total

(If more space required, attach separate sheet)

(a) Character of soil Clay

(b) Kind of crops raised Truck Garden, Orchard, Berries, Pasture

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.

(Head)

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.

(Legal subdivision)

Tp., R., W. M.

(No. N. or S.)

(No. E. or W.)

(f) Is water to be returned to any stream? (Yes or No)

(g) If so, name stream and locate point of return Sec., Tp., R., W. M.

(No. N. or S.)

(No. E. or W.)

(h) The use to which power is to be applied is

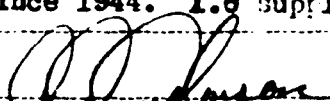

(i) The nature of the mines to be served

10. (a) To supply the city of _____
_____ County, having a present population of _____
(Name of) _____
and an estimated population of _____ in 19_____

(b) If for domestic use state number of families to be supplied _____

(Answer questions 11, 12, 13, and 14 in all cases)

- 11. Estimated cost of proposed works, \$ 500 _____
- 12. Construction work will begin on or before _____ In Place
- 13. Construction work will be completed on or before _____ " "
- 14. The water will be completely applied to the proposed use on or before 2.4 acre Applied under
Water right Certificate #15811. Dam in use since 1944. 1.8 supplemental acres will
be applied by 5-15-58.

(Signature of applicant)

Remarks: From much of the above explanation you will note that this application for a permit is being filed to further provide me with the water you allotted me under my application 21410, permit #16801 and Certificate of Water Right #15811, Vol. 15. Thru an error at that time, however, I was allocated 2.4 Acres. I have noted the additional 1.8 acres on this application, making the total of 4.2 acres.

At this time I am filing an Application for a Permit to Construct a Reservoir to store for beneficial use. I had not done this before although the reservoir I have maintained since 1946 so as to provide me with the water I need. Your office recently advised me that I should file this application to protect my investment.

During three months of the year Ash Swale often dries up completely; this has happened three times that I know of before I constructed my dam. Of course since my dam and my storing of the water prior to the run-off, this does not occur.

STATE OF OREGON }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19_____

WITNESS my hand this _____ day of _____, 19_____

PERMIT

STATE OF OREGON,)
County of Marion,) ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.023 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Ash Swale and Anderson Reservoir to be constructed under Application No. R-29842, Permit No. R-1724.

The use to which this water is to be applied is irrigation and supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated from direct flow and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year from direct flow and storage from reservoir to be constructed under Permit No. R-1724; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein, and shall be further limited to the use of stored water only on the lands described as supplemental,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is March 29, 1955

Actual construction work shall begin on or before July 20, 1956 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1957.

Complete application of the water to the proposed use shall be made on or before October 1, 1958

WITNESS my hand this 20th day of July 1955
