Wm Shirley M Lambert

Remarks: My wife and I purchased this property on September 7, 1949, and at time, of course, the spring was being used. The line was in from the spring to the house and my predecessors in interest had apparently been using this water as early as 1921. We have not been required to make any additional installation. I maintain it and keep it clean and check it right along, but there was no additional installation required, and there will be no more at this time. We have never officially filed for the use of the spring, but it just seems to me wife and I, it might be well to have an official application filed for water.
