

*APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Oregon

I, The United States of America, acting through the Bureau of Reclamation
 of Box 927, Boise,
(Name of applicant)
 (Mailing address)

State of Idaho, do hereby make application for a permit to appropriate
 following described public waters of the State of Oregon, SUBJECT TO EXISTING LIQUORS.

If the applicant is a corporation, give date and place of incorporation:

1. The source of the proposed appropriation is Canyon River

(Name of stream)
 a tributary of Payette River

2. The amount of water which the applicant intends to apply in beneficial use is 10 cubic feet per second. Natural flow right is reserved for all other uses. The water pumped is to replace, upon an agreement with the Oregon Water Resources Commission, the water lost from the Payette Reservoir, as well as subsequent appropriations made by the Oregon Water Resources Commission for the Advancement of the Payette Reservoir.

4. The point of diversion is located 1/2 mi. S. of the mouth of the Payette River at the corner of Sec. 18, T. 20 S., R. 1 E., I. D.

If applicable, give distance and direction from a point of reference:

If there is more than one point of diversion, name the river or stream and the point being within the 1st 1/2 mi.
(Give location legal description)

If 1/2 mi. W. of is the county of Elmore

5. The main stream discharging into the Payette River is the South Fork Payette River, terminating in the Salt Lake.

If 1/2 mi. W. of the proposed diversion is within the limits of a city, town, or village, name the city, town, or village:

Boise, Idaho

6. The following information is required:

1. Name and address of the owner(s) of the property where the diversion is proposed.

2. Description of the property.

3. If water is to be pumped from a general stream, give the name of the stream, the point of diversion, the type of pumping plant, and the pumping capacity.

4. If water is to be pumped from a well, give the name of the well, the type of pump, and the pumping capacity.

5. If water is to be pumped from a reservoir, give the name of the reservoir, the point of diversion, the type of pumping plant, and the pumping capacity.

6. If water is to be pumped from a tank, give the name of the tank, the type of pumping plant, and the pumping capacity.

7. If water is to be pumped from a well and tank, give the name of the well, the name of the tank, the type of pumping plant, and the pumping capacity.

24285

Canal or Pipe Line—Monolithic concrete 84" diameter

7. (a) Give dimensions at each point of canal where materially changed in size, starting at headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 650 ft.; size at intake, 24 in.; size at from intake 84 in.; size at place of use 84 in.; difference in elevation between intake and place of use, 455 ft. Is grade uniform? No, Estimated sec. ft. 222

8. Location of area to be irrigated, or place of use 1/6 Ch. 1

Township	Range	Section	Forty-acre Tract	Sub-section
The water is to be used upon the lands under the Owner of the Canal below the pumping plant as listed in Certificate of Title filed on August 24, 1932, recorded in Office of Clerk of Larimer County, Vol. 2, page 9753, representing 1,261.662 acres within the Irrigation District No. 1, Irrigated Irrigation, Irrigation Company, at rate 100, which is sufficient to supply a canal top of 1.				

If more space required attach separate sheet

(a) Character of soil

(b) Kind of crops raised *Wheat, barley, oats, corn, hay, onions, beans, carrots, turnips, etc., and all kinds of vegetables.*

Power or Mining Purposes—

9. (a) Total amount of power to be developed

(b) Quantity of water to be used for power

(c) Total fall to be utilized

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in

T.P. Sec. N.W. S. R. S. or W.M.

Legal description

(f) Is water to be returned to any stream?

Yes or No

(g) If so, name stream and locate point of return

See

T.P.

P

(h) The use to which power is to be applied

(i) The nature of the mines to be served

Municipal or Domestic Supply—

10. (a) To supply the city of
 County, having a present population of
 and an estimated population of in 19.....

(b) If for domestic use state number of families to be supplied

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$ 148,108

12. Construction work will begin on or before 1937

13. Construction work ~~will~~^{was} completed on or before 1951

14. The water ~~will~~^{was} be completely applied to the proposed use on or before 19.....

F. M. Clinton

(Signature of applicant)

Acting Regional Director, Pacific, Belvoir, acting pursuant to delegation of authority by the Secretary of the Interior.

Remarks: This application is made in connection with the Owyhee Project, a project being constructed by the United States under the Power Act of 1928, those being the act of June 17, 1928 (16 Stat. 313) as supplemented and amended in pursuance particularly of section 8 of the act of June 17, 1930. The water here appropriated is subject to the provisions of the compact between the United States and the irrigation districts of Oregon, the latest proposed contract being that dated August 26, 1930, this application made in connection with the Pumpway pumping plant and under the power act of the Owyhee Project and under the above referred to contracts, as well as the contracts of August 1, 1928 and August 1, 1929, as amended, with the State of Oregon. The water here involved is to be exchanged after the completion of the pumpover storage in the large reservoir for use on behalf of the State of Oregon in 1951.

PERMIT

STATE OF OREGON.

County of Marion,

{
ss.

**This is to certify that I have examined the foregoing application and do hereby grant the same
SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:**

**The right herein granted is limited to the amount of water which can be applied to the land in question
and shall not exceed .222.0 cubic feet per second measured at the point of diversion from the
stream, or its equivalent in case of rotation with other water users, from Snake River.**

The use to which this water is to be applied is supplemental irrigation.

**If for irrigation, this appropriation shall be limited to 1/60 acre foot per year, or
second or its equivalent for each acre irrigated, and shall be further limited to
6.7 a diversion of not to exceed 1 acre foot per acre for each acre irrigated
the irrigation season of each year; provided, further that the total amount
allowed herein, together with the amount secured under any other permit or permit
for the same lands shall not exceed the limitation allowed herein.**

and shall be subject to such reasonable rotation systems as may be ordered by the State Engineer.

The priority date of this permit is October 1, 1972.

**Actual construction work shall begin on or before January 1, 1973, and
hereafter be prosecuted with reasonable diligence until completed or abandoned.**

Complete application of the water to the appropriation shall be made within one year.

WITNESS my hand this 1st day of October, 1972.
