Remarks: The applicants are at the present time served through a 2 inch pipe line with a small concrete surge reservoir from the upper South fork of the same stream with a diversion point which is approximately 400 feet Northeast from the one indicated in this application under water right in the name of P. A. Price and others, recorded on Page 14620, State record of water right, for 4 gal. per minute. Application No. 17276, Permit No. 12-48-6, which has been transferred to applicants who are together the full and sole owners of same and the only users of the water under same. In very dry seasons the flow and pressure is low and slow and applicants now desire to tap the upper left or West fork or branch and run 1 1/2" pipe from old point of diversion under permit No. 12-48-6 to monument (new point of diversion) and a 1 1/2" pipe from there down to reservoir (concrete 300 gallon tank) in place of the present 2" pipe line
