

\*APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Oregon

I, Elmo Angale (Name of applicant)

of Lakeview (Mailing address)

State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Drainage ditches (Name of stream), a tributary of Goose Lake

2. The amount of water which the applicant intends to apply to beneficial use is 216 acre feet cubic feet per second. (If water is to be used from more than one source, give quantity from each)

\*\*3. The use to which the water is to be applied is Irrigation (Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located ft. and ft. from the corner of (N. or S.) (E. or W.) (Section or subdivision)

Variable - Portable Pumping Thruout approx. 4300' of ditch

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the NE 1/4 SE 1/4, NW 1/4 SE 1/4 & SW 1/4 SE 1/4 of Sec. 13, Tp. 39S (Give smallest legal subdivision) (N. or S.)

R. 19E, W. M., in the county of Lake (E. or W.)

5. The Ditch (Main ditch, canal or pipe line) to be 7 (Miles or feet)

in length, terminating in the NE 1/4 SE 1/4 (Smallest legal subdivision) of Sec. 13, Tp. 39S (N. or S.)

R. 19E, W. M., the proposed location being shown throughout on the accompanying map. (E. or W.)

~~Branch Ditch continues on to the compliance with Thomas Creek~~

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam feet, length on top feet, length at bottom feet; material to be used and character of construction

(Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate (Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description \*I plan to mount a pump with a capacity not to exceed 500 Gallons per minute on a John Peere or other similar Farm Tractor and pump direct from ditch into a sprinkler pipe system.

\*A different form of application is provided where storage works are contemplated.

\*\*Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ..... ft.; size at intake, ..... in.; size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

8. Location of area to be irrigated, or place of use NW<sup>1</sup>SE<sup>4</sup> NE<sup>4</sup>SE<sup>4</sup> SW<sup>4</sup>SE<sup>4</sup> - 13-39-19

| Township | Range | Section | Forty-acre Tract  | Number Acres To Be Irrigated |
|----------|-------|---------|---|------------------------------|
| 39S      | 19E   | 13      | NW <sup>1</sup> SE <sup>4</sup>   | 39 ✓                         |
| "        | "     | "       | NE <sup>4</sup> SE <sup>4</sup>   | 19 ✓                         |
| "        | "     | "       | <del>SW<sup>4</sup>SE<sup>4</sup></del> SW <sup>4</sup> SE <sup>4</sup> | <del>19</del> 5 ✓            |
|          |       |         |   | <del>39</del> 63 Acres       |
|          |       |         |   |                              |
|          |       |         |   |                              |
|          |       |         |   |                              |
|          |       |         |   |                              |
|          |       |         |   |                              |
|          |       |         |   |                              |
|          |       |         |   |                              |
|          |       |         |   |                              |
|          |       |         |   |                              |
|          |       |         |   |                              |

(If more space required, attach separate sheet)

(a) Character of soil Sandy loam  
 (b) Kind of crops raised Hay and Grain

Power or Mining Purposes—

9. (a) Total amount of power to be developed ..... theoretical horsepower.  
 (b) Quantity of water to be used for power ..... sec. ft.  
 (c) Total fall to be utilized ..... feet.  
(Head)  
 (d) The nature of the works by means of which the power is to be developed .....

(e) Such works to be located in ..... of Sec. ....  
(Legal subdivision)

Tp. ...., R. ...., W. M. ....  
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream? .....  
(Yes or No)

(g) If so, name stream and locate point of return .....  
 Sec. ...., Tp. ...., R. ...., W. M. ....  
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is .....

(i) The nature of the mines to be served .....

Municipal or Domestic Supply—

10. (a) To supply the city of \_\_\_\_\_

(Name of) \_\_\_\_\_ County, having a present population of \_\_\_\_\_  
and an estimated population of \_\_\_\_\_ in 19\_\_\_\_\_

(b) If for domestic use state number of families to be supplied \_\_\_\_\_

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$- 4800.<sup>00</sup>

12. Construction work will begin on or before - March 5<sup>th</sup> 1950

13. Construction work will be completed on or before - June 1<sup>st</sup> 1950

14. The water will be completely applied to the proposed use on or before June 1<sup>st</sup> 1950

x *E. M. Angele*  
(Signature of applicant)

Remarks: The drainage ditch, as shown on the accompanying map has been recently completed. This ditch was put in with the idea of confining surplus water and waste and drainage water to a single deep channel instead of allowing it to spread over the adjacent acreage, and to drain this adjacent acreage. Approximately 30 acres of the 72 acres applied for in this application will benefit by this drainage and has been ripped with a road ripper to a depth of 3 1/2 feet, at right angles from the ditch to the higher ground. By utilizing this waste and drainage water to irrigate this land it is hoped to make it all more productive. The higher non-alkaline land will certainly benefit by irrigation and it would provide a means of dissolving and washing off the salts and alkali on the low land.

This map shows one control valve headgate. It is quite possible that more will be needed in the ditch to pool the water sufficiently to enable a pump to properly operate. I plan to mount a pump on a farm tractor which will furnish the power and enable me to move it along the ditch and pump directly into a sprinkler line. By doing this I can eliminate nearly all the cost of a main line which would be required if the pump were set permanently in one location.

I inclose my personal check for \$21.30 to cover the following: Examination fee \$10.00, Irrigation fee, 72 acres, \$11.30.

I also inclose The original tracing and one copy of a blue print made from this tracing together with a letter from the Lakeview Water Users, Inc., granting me their permission to appropriate and use any of their wastewaters that may find their way into my ditch.

*11/7/56 9 of the 14 acres originally shown in the 3114 SE 1/4 has been removed from this application, a water right for same having been purchased from the Lakeview Water users.*

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before November 13, 1956

WITNESS my hand this 11th day of September, 1956

PERMIT

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed ~~1.57~~<sup>1.57</sup> cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from drainage ditches

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is May 31, 1950

Actual construction work shall begin on or before December 20, 1952 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1958

Complete application of the water to the proposed use shall be made on or before

October 1, 1959

WITNESS my hand this 20th day of December 1956

Lewis A. Stanley  
STATE ENGINEER

Permits for power development are subject to the payment of annual fees as provided in sections 1 and 2, chapter 74, Oregon Laws 1933.

Application No. 24791  
Permit No. 24489

PERMIT  
TO APPROPRIATE THE PUBLIC  
WATERS OF THE STATE  
OF OREGON

Division No. District No.  
This instrument was first received in the office of the State Engineer at Salem, Oregon, on the 31st day of May 1950 at 1:00 o'clock P. M.

Returned to applicant: September 11, 1956  
Corrected application received:

Approved: December 20, 1956
