Permit No. 24852

APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, Stanley Sabin (Name of applicant)
of 68 Post Street San Francisco (Mailing address)
State of California, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

Spring source and an unnamed small stream

1. The source of the proposed appropriation is _____ (Name of stream)
a tributary of Pacific Ocean

2. The amount of water which the applicant intends to apply to beneficial use is 0.525
cubic feet per second. (If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is irrigation
(Irrigation, power, mining, manufacturing, domestic supplies, etc)

See attached sheet under remarks

4. The point of diversion is located _____ ft. _____ and _____ ft. _____ from the
corner of _____ (N or S) (E or W)
(Section or subdivision)
(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the _____ of Sec. _____ Tp. _____
(Give smallest legal subdivision) (N or S)
R. _____, W. M., in the county of _____
(E or W)

5. The Pipe line to be 1500 feet
(Main ditch, canal or pipe line) (Miles or feet)
in length, terminating in the See Remarks of Sec. _____ Tp. _____
(Smallest legal subdivision)
R. _____, W. M., the proposed location being shown throughout on the accompanying map.
(E or W)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam _____ feet, length on top _____ feet, length at bottom, _____ feet; material to be used and character of construction _____
(Use rock, concrete, etc., or other material)

rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate _____
(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description Wisconsin 7 1/2 H.P. Gasoline
(Size and type of pump)

Engine with centrifugal pump having 4" intake and 3" outlet, mounted for
(Size and type of engine or motor to be used, total head water is to be lifted, etc.)
portable use.

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salmon, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

Portable Irrigation Pipe
 (c) Length of pipe. **1800** ft.; size at intake, **5** in.; size at **1800** ft. from intake **5** in.; size at place of use **5** in.; difference in elevation between intake and place of use, **20** ft. Is grade uniform? **Yes** Estimated capacity, sec. ft.

8. Location of area to be irrigated, or place of use

Township North or South	Range E. or W. of Williams-Meridian	Section	Partly-acre Tract	Number Acres To Be Irrigated
41 S	18 W	9	SW ¹ / ₄ of the NE ¹ / ₄	5
41 S	18 W	9	SW ¹ / ₄ of the N ¹ / ₄	5
41 S	18 W	9	NE ¹ / ₄ of the SW ¹ / ₄	12
41 S	18 W	9	NE ¹ / ₄ of the S ¹ / ₄	20

(If more space required, attach separate sheet)

(a) Character of soil **Coast Loam**
 (b) Kind of crops raised **Easter Lily Bulbs and Pasture**

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.
 (b) Quantity of water to be used for power sec. ft.
 (c) Total fall to be utilized feet.
 (Head)
 (d) The nature of the works by means of which the power is to be developed
 (e) Such works to be located in of Sec.
 (Legal subdivision)

Tp., R., W. M.
 (No N. or S.) (No E. or W.)

(f) Is water to be returned to any stream? (Yes or No)
 (g) If so, name stream and locate point of return
 Sec., Tp., R., W. M.
 (No N. or S.) (No E. or W.)
 (h) The use to which power is to be applied is
 (i) The nature of the mines to be served

10. (a) To supply the city of None

County, having a present population of

(Name of)

and an estimated population of in 19

(b) If for domestic use state number of families to be supplied None

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$ 2000.00

12. Construction work will begin on or before

13. Construction work will be completed on or before Completed

14. The water will be completely applied to the proposed use on or before This is an existing system and has been in use.

(Signature of applicant)

Remarks: This application covers an existing irrigation system.

At Diversion Point "A", the water from the small stream is diverted to a 30 foot by 20 foot by 25 foot deep dug sump from which water is pumped through portable 3" irrigation pipe and through 21 sprinkler heads to irrigate the crop area being used.

At Diversion Point "B" a dug sump 40 foot by 40 foot by 20 foot deep is located in a boggy area where several small springs flow from the ground, this water is gathered in the sump, the overflow going into an open stream. From the sump the water is pumped and distributed via 3" pipe and the sprinkler heads to the crop area nearest it.

Water is used only for seasonal irrigation.

Diversion Point A

Point in small

the Concrete Monument which is the initial point of the G. J. Heiberger subdivision, which monument is North 62 deg. 11 min. East from the Meander corner common to Sections 8 and 9 in Township 41 South, Range 13 West, W.M. Said point being in the Northeast Quarter of the Southwest Quarter of said Section 9.

Water from source "A" requested is 0.265 sec. ft.

Diversion Point B

Sump in spring sources is located South 198.0 feet and East 925.0 feet from the concrete monument which is the initial point of the G. J. Heiberger subdivision, which monument is North 62 deg. 11 min. East from the Meander corner common to Sections 8 and 9 in Township 41 South, Range 13 West, W.M. Said point being in the Northwest Quarter of the Southeast Quarter of said Section 9.

Water from source "B" requested is 0.260 sec. ft.

The waters from both diversion points all arise upon the lands of the applicant, Theodore Tamba.

As required by the crop location, the pipe line may end in any one of the 4 forty acre, 1/4 sections surrounding the center of Section 9.

STATE OF OREGON, } ss.

County of Marion, }

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before

PERMIT

STATE OF OREGON,

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.52 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from unnamed spring and unnamed stream, being 0.26 c.f.s. from each

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is April 24, 1957

Actual construction work shall begin on or before June 20, 1958 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1959.

Complete application of the water to the proposed use shall be made on or before October 1, 1960

WITNESS my hand this 20th day of June 1957.
