If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is ... a tributary of ...

2. The amount of water which the applicant intends to apply to beneficial uses is ... cubic feet per second. 1/4 from each

**3. The use to which the water is to be applied is ...

4. The point of diversion is located ... ft. and ... ft. from the corner of ... (Section or subdivision) ... 910' ... Section 15, T. 13 S., R. 2 E., N. 2 ... is the SW corner of ... (If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary) being within the ... of Sec. ... T. ... R. ... W. M., in the county of ...

5. The ... (Main ditch, canal or pipe line) to be ... in length, terminating in the ... of Sec. ... T. ... R. ... W. M., the proposed location being shown through ...

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam ... feet, length on top ... feet; material to be used and character of construction

Two reservoirs—1000 gallon ... rock and brush, timber crib, etc. wasteway over or around dam

(b) Description of headgate ... is S 75° E. ...

(c) If water is to be pumped give general description ... (Size and type of engine or motor to be used to be pumped water)

*A different form of application is provided where ... **Application for permits to appropriate water for the generation of electricity with the Hydroelectric Commission. Either of the above forms may be combined with almost together with ... Oregon

Canal System or Pipeline

7. (a) Give dimensions at each point of canal where material changes

headgate width on top (at water line) feet, width on bottom

feet, depth of water feet, grade

Flow of feet

(b) At headgate width on top (at water line)

feet, width on bottom feet, depth of water

grade feet fall per one hundred feet

total length of canal 1220 feet are a miles 7

from intake 1 1/2 miles at distance 1

intake and place of use 1/2 mile at distance 1/2

.25 sec. ft.

8. Location of area to be irrigated, or place of use

Township 13 S Range 2 E Section 24

13 S 2 E 24

13 S 2 E 24

(a) Character of soil

(b) Kind of crop raised

Power for Mining Purposes

9. (a) Total amount of power to be generated

(b) Quantity of water to be used to generate

(c) Total fall to be utilized

(d) The nature of the works by means of which the power is to be generated

(e) Such works to be located in

Tp. 13 S, R. 2 E, W. M. 24

(f) Is water to be returned to any stream?

(g) If so, name stream and locate point of return

Sec. 24 Tp. 13 S, R. 2 E, W. M. 24

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

10. (a) To supply the city of

..... County, having a present population of

(Name of)

and an estimated population of in 19

(b) If for domestic use state number of families to be supplied 5

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$ 428.00

12. Construction work will begin on or before July 1, 1957

13. Construction work will be completed on or before October 1, 1958

14. The water will be completely applied to the proposed use on or before October 1, 1958

(Signature of applicant)

Remarks: Water from 3 springs will be piped to the 1000 gallon tank. One pipe from the 1000 gallon tank will serve 2 families with domestic water. A second pipe will take the overflow to the 5000 gallon tank. A pipe from the 5000 gallon tank will serve 3 families with domestic water. A fourth spring will be piped into the overflow pipe from the 1000 gallon reservoir.

The location of buildings to be served are all tied into the main line S. 19, T. 13 S., R. 1 E. V. 1. The ties are as follows: S. 81 1/2 E. 330'; S. 81 1/2 E. 330'; S. 54 1/2 E. 150'; S. 52 E. 150'; and S. 19 T. 13 S.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 19
