Permit No. 25985

STATE ENGINEER
SALEM, OREGON

APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, Gordon HAYNES (Name of applicant)

of Rt. 2 Box 302 E, McMinnville (Mailing address)

State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is waste water from City of McMinnville's domestic reservoir. Pond to be constructed under Application No. P-25898. See No. 1 under remarks.

2. The amount of water which the applicant intends to apply to beneficial use is 0.15 cubic feet per second. One source only. See No. 2 under remarks. (If water is to be used from more than one source, give quantity from each)

3. The use to which the water is to be applied is irrigation and livestock. (Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 1452 ft. N. and 642 ft. W. from the S.E. corner of Sec. 13 T4S R5W in Yamhill County, Oregon. (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the SE 1/4 of SE 1/4 of Sec. 13, Tp. 4 S, R. 5 W, W. M., in the county of Yamhill. (Give smallest legal subdivision) (N. or S.) (E. or W.)

5. The ditch (Main ditch, canal or pipe line) to be 65 feet in length, terminating in the SE 1/4 of SE 1/4 of Sec. 13, Tp. 4 S, R. 5 W, W. M., the proposed location being shown throughout on the accompanying map. (Smallest legal subdivision) (N. or S.) (E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam 9 1/2 feet, length on top 268 feet, length at bottom 244 feet; material to be used and character of construction compacted earth fill with concrete spillway at one end. (Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate If this means canal headgate; there is none. If it means spillway: Concrete aprons & ways with 2x6 gate boards. There will be one 2 ft. opening. (Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description Pacific Pumping Co. SIK 3056 C Powered with Gen. Elec. 2 HP 3450 PPM 115-230 v. motor. Pump to be portable. Suction head 4 feet. Discharge head 25-30 ft. Will use 10 sprinklers, but their size as to p.r. is unknown. (Size and type of pump) (Size and type of engine or motor to be used, total head water is to be lifted, etc.)

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line— The discharge is all pipe line.

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe, 800 ft.; size at intake, 1 1/4 in.; size at _____ 500 ft. from intake _____ 1 in.; size at place of use 3/4 & 1 in.; difference in elevation between intake and place of use, 30 (MAX.) ft. Is grade uniform? Yes Estimated capacity, one half sec. ft.

8. Location of area to be irrigated, or place of use _____

Township North or South	Range E. or W. of Williams Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
4 S	5 W	13	SE 1/4 of SE 1/4	Max of 7
4 S	5 W	13	NE 1/4 of SE 1/4	Max of 3

(If more space required, attach separate sheet)

(a) Character of soil Clay - loam

(b) Kind of crops raised Vegetables, fruits and pasture.

Power or Mining Purposes— Does not apply.

9. (a) Total amount of power to be developed _____ theoretical horsepower.

(b) Quantity of water to be used for power _____ sec. ft.

(c) Total fall to be utilized _____ feet.
(Head)

(d) The nature of the works by means of which the power is to be developed _____

(e) Such works to be located in _____ of Sec.
(Legal subdivision)

Tp. _____, R. _____, W. M. _____
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream? _____
(Yes or No)

(g) If so, name stream and locate point of return _____

_____, Sec. _____, Tp. _____, R. _____, W. M. _____
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is _____

(i) The nature of the mines to be served _____

10. (a) To supply the city of _____
_____ County, having a present population of _____
and an estimated population of _____ in 19_____

(b) If for domestic use state number of families to be supplied _____

(Answer questions 11, 12, 13, and 14 in all cases)

- 11. Estimated cost of proposed works, \$ 2,000.00 _____
- 12. Construction work will begin on or before May 1, 1959. _____
- 13. Construction work will be completed on or before Aug. 1, 1959. _____
- 14. The water will be completely applied to the proposed use on or before Aug. 15, 1959. _____

Gordon Haynes
(Signature of Applicant)

Remarks: 1. This overflow water originally went into Cozine Creek via open ditch. A few years ago the City of McMinnville installed a new intake line into their reservoir. Upon completion of this they diverted the overflow from the open ditch to the original intake line. This original intake line is a 12" welded steel pipe which runs across my property and empties into Baker Creek. This pipe runs under my proposed pond as is shown by the attached sketch.

2. The amount of water which can enter this proposed pond will be controlled 99.9% by two valves installed in this 12" welded steel pipe.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____ completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before March 30, 1959.

WITNESS my hand this 30th day of January, 1959.

LEWIS A. STANLEY

STATE ENGINEER

By *James W. Carver, Jr.*
James W. Carver, Jr. ASSISTANT

PERMIT

STATE OF OREGON,

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed ~~0.14~~ 0.13 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from overflow of the City of Holladayville Reservoir and reservoir to be constructed under Application No. R-25898, Permit No. R- 2222,

The use to which this water is to be applied is irrigation and stock, being 0.13 c.f.s. for irrigation and 0.01 c.f.s. for stock.

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated from direct flow and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year from direct flow and storage from reservoir to be constructed under Permit No. R-2222, and shall also be limited to the water available at the proposed point of diversion, and shall not carry with it the right to compel the continuance of the overflow,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is January 27, 1959

Actual construction work shall begin on or before April 15, 1960 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1960

Complete application of the water to the proposed use shall be made on or before October 1, 1961

WITNESS my hand this 15th day of April 1959
