STATE ENGINEER
SALEM, OREGON

APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, M. E. Payne (Name of applicant)
of Route 3, Box 526, Corvallis (Mailing address)
State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation NO

1. The source of the proposed appropriation is Willamette River and adjacent sloughs and gravel pit (Name of stream), a tributary of _____

2. The amount of water which the applicant intends to apply to beneficial use is 2,594 cubic feet per second. As per map (If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is irrigation (Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located as per the attached description ft. _____ and _____ ft. _____ from the _____ (E. or W.)
Item No. 4

Diversion to be from several locations and sources, from the Willamette River and its adjacent sloughs and lakes. All diversions located in reference to the NW corner John Baker DLC #59, said corner being in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 35, T 12S, R 5W, W.M.

Diversion # 1: 830.26' E and 10.0' S from reference.

Diversion # 2: At various points along unnamed slough between the following: a point 2990.90' E, 746.76' S and a point 3006.37' E, 2558.10' S from reference. (Continued under remarks)

R. _____, W. M., in the county of _____ (E. or W.)

5. The _____ pipe line to be portable ~~not~~ not exceeding 5,000 _____ (Main ditch, canal or pipe line) (Miles or feet)
in length, terminating in the several quarter sections of Sec. 35, 36 & 25 Tp. 12 S (Smallest legal subdivisions) (N. or S.)

R. 5 W, W. M., the proposed location being shown throughout on the accompanying map. (E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam _____ feet, length on top _____ feet, length at bottom _____ feet; material to be used and character of construction _____ (Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate _____ (Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description _____ original equipment will include _____ (Size and type of pump)
5 x 4 centrifugal pump powered by 40 hp gas engine. In the future, electric (size and type of engine or motor to be used, total head water is to be lifted, etc.)
power may be used from diversion # 1 to irrigate area indicated on the map.
More than one unit will be operated at one time in the future

*A different form of application is provided where storage works are contemplated.
**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 5,000 ft, ^{maximum} size at intake, 6 in.; size at 2,000 ft. from intake 6 in.; size at place of use 4 & 3 in.; difference in elevation between intake and place of use, maximum of 20 ft. Is grade uniform? no Estimated capacity, 1.5 - 1st unit sec. ft.

8. Location of area to be irrigated, or place of use

Township North or South	Range E. or W. of Williams-Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
12 S	5 W	25	SW, SW	20.7

Total				295.3 201.2

(If more space required, attach separate sheet)

(a) Character of soil west half silty clay loam, east half silt loam

(b) Kind of crops raised legume forage, legume seed, forage, horticulture

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.
(Head)

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.
(Legal subdivision)

Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream?
(Yes or No)

(g) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

10. (a) To supply the city of _____
County, having a present population of _____
and an estimated population of _____ in 19_____

(b) If for domestic use state number of families to be supplied _____

(Answer questions 11, 12, 13, and 14 in all cases)

- 11. Estimated cost of proposed works, \$ ^{15,000} 20,000
- 12. Construction work will begin on or before Late spring, 1959
- 13. Construction work will be completed on or before 1960
- 14. The water will be completely applied to the proposed use on or before irrigation season
of 1960 or 1961

X W. F. Payne
(Signature of applicant)

Remarks: The irrigation program will be planned to irrigate portions of
the requested acreage every year. Under present plans, not more than 50%
would be irrigated in any given irrigation season. A request for Extension
to prove water right may be necessary to prove land requested on maps. After
original rotation all of land will receive water at least every fourth or
fifth year.

Diversion # 3: At various points along unnamed slough between the following: a
point 2998.65' E, 1046.76' S and a point 3126.37' E, 2558.10' S
from reference.

Diversion # 5: At various points along Willamette River between the following: a
point 4766.05' E, 1411.95' N and a point 6487.05' E, 1411.95' N
from reference.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying
maps and data, and return the same for amendment

In order to retain its priority, this application must be returned to the State Engineer, with correc-
tions on or before June 15, 1959.

WITNESS my hand this 15th day of April, 1959

LEWIS A. STANLEY

STATE ENGINEER

Walter N. Patey

ASSISTANT

PERMIT

STATE OF OREGON,

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 2.50 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Willamette River and two unnamed sloughs; being 0.37 c.f.s. from Willamette River, 1.05 c.f.s. from northern slough and 1.08 c.f.s. from southern slough.

The use to which this water is to be applied is irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is April 7, 1959

Actual construction work shall begin on or before June 22, 1960 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1961.

Complete application of the water to the proposed use shall be made on or before October 1, 1962.

WITNESS my hand this 22nd day of June 1959

Lewis A. Stanley STATE ENGINEER

Application No. 23020 Permit No. 26125
