10. (a) To supply the city of

..... County, having a present population of

(Name of)

and an estimated population of in 19.....

(b) If for domestic use state number of families to be supplied

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$..... 3,900,000

12. Construction work will begin on or before July 1, 1960

13. Construction work will be completed on or before October 1, 1962

14. The water will be completely applied to the proposed use on or before October 1, 1962

(Signature of applicant)

Remarks: Reference is made to the attached Project Area Map for location and layout of the project works as proposed. Final design may change, somewhat, the details and locations given herein.

This project is an essential part of the Carmen Project. This application is to provide for increased machine capacity in Trail Bridge Plant.

All lands affected by this project are within the boundaries of the Willamette National Forest.

Hydrographic studies have been based on existing U.S.G.S. Recording Station Data together with miscellaneous and continuing pertinent flow measurements on that part of the McKenzie Watershed between Clear Lake and McKenzie Bridge.

This application is supplemental to water authorized by Permit No. 25514.

STATE OF OREGON, }
County of Marion, } ss.

CITY OF EUGENE, by the
EUGENE WATER & ELECTRIC BOARD

By: 

Eugene Bridge Superintendent-Secretary

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 19.....

WITNESS my hand this day of, 19.....

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.300 cubic feet per second measured at the point of diversion from the McKenzie River and Trail Bridge Reservoir to be constructed under permit No. R-2137 and permit No. R-2138.

The use to which this water is to be applied is electric power generation

The priority date of this permit is April 18, 1960.

The appropriation authorized herein is supplemental to or an enlargement of the right granted by permit No. 25514 issued by the State Engineer on August 4, 1958.

This permit is granted subject to the condition that the permittee will comply in all respects with the resolution of the State Water Resources Board of Oregon dated July 17, 1958, which resolution embodies a program for development of the water resources of the McKenzie River from Clear Lake downstream to River Mile 76.9 (below the mouth of Smith River) including Smith River and Bunch Grass Creek.

This permit is granted subject to all terms and conditions of that certain agreement made and entered into the first day of August 1958, by and between the City of Eugene, acting by and through the Eugene Water and Electric Board, party of the first part; and the State of Oregon, acting by and through the Oregon State Game Commission and the Fish Commission of Oregon, party of the second part, which agreement is recorded on Pages 2 to 5, Volume 4, Miscellaneous Records of the State Engineer and by reference made a part hereof.

Actual construction work under this permit shall be begun and completed within the time limits fixed in any license covering this project issued by the Federal Power Commission as provided by ORS 537.240 (4).

Complete application of the water to the proposed use shall be made on or before October 1, 1965

WITNESS my hand this 12th day of August, 1960

Lewis A. Stanley
STATE ENGINEER
