If the applicant is a corporation, give date and place of incorporation 1. The source of the proposed appropriation is Small branch of Meec. Creek and Reservair, a tributary of Thakatin River 2. The amount of water which the applicant intends to apply to beneficial use is 125 whice feet per second. (It waster is to be used from many than one source, give quantity from each) one of the proposed appropriation is Small branch of Meec. (It waster is to be used from many than one source, give quantity from each) (It waster is to be applied is Lrrigation, power, mining, manufacturing, domestic supplies, etc.)
If the applicant is a corporation, give date and place of incorporation 1. The source of the proposed appropriation is Small branch of Mege (Name of stream) 2. Leg K. and Reservair, a tributary of Jualatin River 2. The amount of water which the applicant intends to apply to beneficial use is 125 whice feet per second. (We write is to be used from mory than one source, give quantity from each) **3. The use to which the water is to be applied is Legis at 100. (Brigation, power, mining, manufacturing, domestic supplies, etc.)
1. The source of the proposed appropriation is Small branch of Meec. Chame of stream) Creek and Reservair, a tributary of Thakatin River 2. The amount of water which the applicant intends to apply to beneficial use is 125 whice feet per second. (It waster is to be used from mory than one source, give quantity from each) **3. The use to which the water is to be applied is Lreignties, power, mining, manufacturing, domestic supplies, etc.)
2. The amount of water which the applicant intends to apply to beneficial use is 125 ubic feet per second. (It water is to be used from more than one source, give quantity from each) **3. The use to which the water is to be applied is 1. I right to no constitution, power, mining, manufacturing, domestic supplies, etc.)
2. The amount of water which the applicant intends to apply to beneficial use is 125 ubic feet per second. (If water is to be used from more than one source, give quantity from each) **3. The use to which the water is to be applied is 1
whice feet per second. (If water is to be used from mory than one source, give quantity from each) **3. The use to which the water is to be applied is
**3. The use to which the water is to be applied is
**3. The use to which the water is to be applied is
2.4
4. The point of diversion is located 60 ft. S and 510 ft. W from the N.4 C
orner of Section 26 T25 R3W
(Section or subdivision)
(If preferable, give distance and bearing to section corner)
(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)
eing within the NE 4 of the NW 4 of Sec. 24 , Tp. 25 (Give madient legal substitution)
3 W, W. M., in the county of 94 m hill
5. The No diver sian ditch Needed to be (Miles or feet)
t length, terminating in the
, W. M., the proposed location being shown throughout on the accompanying map.
DESCRIPTION OF WORKS
6. (a) Height of dam
50 feet; material to be used and character of construction Earth packed in
1 aa
(b) Description of headgate
(c) If water is to be pumped give general description 12 H.P. Wiscomsin Qir
Capled Mater 50 gallans per Minute at 120 ft. head (Size and type of plains or motor to by used, total head water is to be lifted, etc.)

[&]quot;A different form of application is provided where storage works are contemplated.

[&]quot;Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Sydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by eddressing the State Engineer, Salem, Oregon.
