10. (a) Total amount of power to be developed _____ theoretical horsepower.

(b) Total fall to be utilized _____ feet.
(Head)

(c) The nature of the works by means of which the power is to be developed _____

(d) Such works to be located in _____ of Sec. _____
(Legal subdivision)

Tp. _____, R. _____, W. M. _____
(No. N. or S.) (No. E. or W.)

(e) Is water to be returned to any stream? _____
(Yes or No)

(f) If so, name stream and locate point of return _____
 _____, Sec. _____, Tp. _____, R. _____, W. M. _____
(No. N. or S.) (No. E. or W.)

(g) The use to which power is to be applied is _____

(h) The nature of the mines to be served _____

MUNICIPAL SUPPLY—

11. To supply the city of.....
.....County, having a present population of....., and an
(Name of)
estimated population of.....in 191....

(Answer questions 12, 13, 14, and 15 in all cases)

- 12. Estimated cost of proposed works, \$..... (See Remarks)
- 13. Construction work will begin on or before (See Remarks)
- 14. Construction work will be completed on or before..... (See Remarks)
- 15. The water will be completely applied to the proposed use on or before..... (See Remarks)

Duplicate maps of the proposed ditch or other works, prepared in accordance with the rules of the State Water Board, accompany this application.

D S Rigel
.....
(Name of applicant)
M H Miller
.....

Signed in the presence of us as witnesses:

- (1) Lester Sparlin Williams, Oregon
(Name) (Address of witness)
- (2) I F Sparlin Williams, Oregon
(Name) (Address of witness)

Remarks: The foregoing application results from the fact, that in making a permanent survey of the ditch line under Permit #2600, it was found that the ditch line in portions of Sections 11 and 2 reached a higher elevation than shown in the original plat, and embraced the additional ground described in the foregoing application, hence, the owners make the foregoing application for the purpose of including this additional ground under the irrigation right under the ditch, the variance between the ditch line as permanently established and that originally projected on the plat being indicated on the plat accompanying this application. The commencement of the construction of the ditch, the cost of the proposed works and the completion of construction are as stated in Application #4438.

STATE OF OREGON, }
County of Marion } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction or completion, as follows:.....

In order to retain its priority, this application must be returned to the State Engineer, with corrections, on or before....., 191....

WITNESS my hand this..... day of....., 191....

State Engineer.

STATE OF OREGON,

County of Marion

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: If for irrigation, this appropriation shall be limited to one-eightieth of one cubic foot per second, or its equivalent, for each acre irrigated, and shall be subject to such reasonable rotation system as may be ordered by the proper State officer.

The amount of water appropriated shall be limited to the amount which can be applied to beneficial use and not to exceed 0.44 cubic feet per second, or its equivalent in case of rotation.

The priority date of this permit is November 24, 1915

Actual construction work shall begin on or before December 3, 1916

and shall thereafter be prosecuted with reasonable diligence and be completed on or before June 1, 1917

Complete application of the water to the proposed use shall be made on or before

October 1, 1918

WITNESS my hand this 3d day of December, 1915

John H. Lewis

State Engineer.

Permits for power development are subject to the limitation of franchise as provided in Sec. 6633, Lord's Oregon Laws, and the payment of annual fees as provided in Chapter 213, Laws of 1915.
