(Signature of applicant)

Remarks: This system or one similar has been used each summer to supplement my well water supply for house use. The well shown on _____ would more accurately be described as a cistern since it doesn't supply enough water for domestic use for a family of four even in the winter months when we have our heavy rains. It is 3' in dia. and 30' deep, lined with concrete. It was used as a well in about 1900 for a small one room cabin that had no plumbing whatsoever. In 1944 we lined it with concrete and started using it as a cistern.
