Remarks: Excess or waste irrigation water from the E $\frac{1}{2}$ SE $\frac{1}{2}$ of Section 36
T $\frac{1}{2}$ 24 R Range 19 E drains easterly into the borrow pit of the County Road.
This water then crosses the county road a short distance North of the
section corner common to Sections 36, 31, 1, and 6 and enters a ditch
on the north side of the levee and private road between sections 31 and
6 as shown on the accompanying map. I plan to divert the water from this
ditch on to the land to be irrigated. Using "strip borders" and, or,
terruggations I plan to irrigate from north to south.
This application was presented to the directors of the Lakeview Water
Users, Inc., at their regular meeting on May 29, 1961, together with the
inclosed stipulation which I had Attorney T. R. Conn draft. By a
motion, duly made, recorded and carried the directors agreed to accept
the stipulation and waive any protest to this application.
