March 31, 1955 at Joseph, Oregon

1. The source of the proposed appropriation is Roudolph Springs
(Name of stream)
a tributary of Wallawa River

2. The amount of water which the applicant intends to apply to beneficial use is
cubic feet per second. 1.39 c.f.s.
(If water is to be used from more than one source, give quantity from each)

3. The use to which the water is to be applied is Domestic supplies
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)
and manufacturing

4. The point of diversion is located _____ ft. _____ and _____ ft. _____ from the
(N. or S.) (E. or W.)
corner of _____
(Section or subdivision)

This spring is located beginning at the West one quarter corner of Section 30, T2S. R45. E. W. 10, thence East 630 feet; thence South a distance of 240 feet.
(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the NW 1/4 SW 1/4 of Sec. 30, Tp. 25
(Give smallest legal subdivision) (N. or S.)

R. 45 E, W. M., in the county of Wallawa
(E. or W.)

5. The _____ to be _____
(Main ditch, canal or pipe line) (Miles or feet)
in length, terminating in the _____ of Sec. _____, Tp. _____
(Smallest legal subdivision) (N. or S.)

R. _____, W. M., the proposed location being shown throughout on the accompanying map.
(E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam _____ feet, length on top 25 feet, length at bottom
10 feet; material to be used and character of construction concrete & earth
(Loose rock, concrete, masonry,

rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate Wood constructed head gate with
(Timber, concrete, etc., number and size of openings)

24" x 36", also 3/4" pipes & 2 / 2 1/2" pipes

(c) If water is to be pumped give general description 2 - 1 1/2" centrifugal &
(Size and type of pump)

3 - 2 1/2" centrifugal pumps - 150 - 2 portable construction
(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

tire pumps 2" in size - average head 200'

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe. 400 ft.; size at intake, 6 in.; size at ft. from intake 6 in.; size at place of use in.; difference in elevation between intake and place of use. 20 ft. Is grade uniform? *Approx* Estimated capacity, 1.5 c sec. ft.

8. Location of area to be irrigated, or place of use

Township North or South	Range E. or W. of Will. mer. Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
2 South	45 E. of M.	30	NW 1/4 Sec 30	160.00

(If more space required, attach separate sheet)

(a) Character of soil

(b) Kind of crops raised

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.

Tp. R. W. M.

(f) Is water to be returned to any stream? (Yes or No),

(g) If so, name stream and locate point of return

..... Sec. Tp. R. W. M.

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

10. (a) To supply the city of _____

County, having a present population of _____

and an estimated population of _____ in 19____

(b) If for domestic use state number of families to be supplied: *Supply water for office 35 men working at our Mill*

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$ *2000.00*

12. Construction work will begin on or before *April, 1961*

13. Construction work will be completed on or before *July, 1961*

14. The water will be completely applied to the proposed use on or before *July, 1961*

(We first started using this spring in June 1955.)
Chief Joseph Lumber Co
by Richard A. Horgan, Sec. Treas.
(Signature of applicant)

Remarks: *This spring has been developed for over a year and the water from it has been used for over nine years, for domestic supply, but never filed on.*

The spring house has a concrete foundation 10 x 12 with a screened gate at both ends.

All surplus water runs into Wallowa River.

Besides domestic uses, this water is also used for industrial purposes in that it is our source for fire protection, dry kiln & boiler water supply, cooling and a limited amount of log washing. This mill has no log pond so the spring is our only source of supply for these industrial uses.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before June 26, 1962.

WITNESS my hand this 26th day of April, 1962.

LEWIS A. STANLEY
STATE ENGINEER

By *Walter N. Perry*
Walter N. Perry
ASSISTANT

PERMIT

STATE OF OREGON

County of Marion

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.02 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Roudolph Spring

The use to which this water is to be applied is industrial and domestic use of two families: being 1.0 c.f.s. for industrial and 0.02 c.f.s. for domestic.

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is April 17, 1962

Actual construction work shall begin on or before June 26, 1963 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1964

Complete application of the water to the proposed use shall be made on or before October 1, 1965

WITNESS my hand this 26th day of June, 1962
