Permit No. 28053

STATE ENGINEER
SALEM, OREGON

APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, John M. Corran (Name of applicant)

of John, Route 1, Box 77 (Mailing address)

State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation none

1. The source of the proposed appropriation is unnamed drain ditch (Name of stream), a tributary of Butter Creek - Umatilla River

2. The amount of water which the applicant intends to apply to beneficial use is 4 cubic feet per second. from each pump, using one pump at a time (If water is to be used from more than one source, give quantity from each)

3. The use to which the water is to be applied is irrigation (Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 20 ft. North and 50 ft. East from the SW corner of East Half of Section 11, Township 4 North, Range 28 E, W.M.; pump number one. 800 feet North, 1000 feet West, from SE corner of East Half, Section 11, Township 4 North, Range 28 E, W.M.

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the East Half (SW 1/4 SE 1/4 & SE 1/4 SE 1/4) of Sec. 11, Tp. 3 North

R. 28 E., W. M., in the county of Umatilla

5. The Drain ditch to be approximately 1 1/2 miles when finished (Main ditch, canal or pipe line) in length/terminating in the NE 1/4 of the SE 1/4 of Sec. 11, Tp. 3 N.

R. 28 E., W. M., the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam None feet, length on top feet, length at bottom feet; material to be used and character of construction

(Loose rock, concrete, masonry, rock and brush, timber crib, etc., waterway over or around dam)

(b) Description of headgate (Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description 10 inch high velocity, low lift propeller pump with seven horsepower electric motor or approximately a 10 horsepower gas motor, whichever is most feasible. The water is to be lifted approximately six feet.

*A different form of application is provided where storage works are contemplated.
**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line— see attached note.

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

8. Location of area to be irrigated, or place of use

Township North or South	Range E. or W. of Willow River Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
3 N.	28 E.M.	11	NE $\frac{1}{4}$ SE $\frac{1}{4}$	40
"	" "	"	NW $\frac{1}{4}$ SE $\frac{1}{4}$	6
"	" "	"	SW $\frac{1}{4}$ SE $\frac{1}{4}$	18.3
"	" "	"	SE $\frac{1}{4}$ SE $\frac{1}{4}$	38

(If more space required, attach separate sheet)

(a) Character of soil Sandy loam

(b) Kind of crops raised grass and grains

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.

(Head)

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.

(Legal subdivision)

Tp., R., W. M.

(No. N. or S.)

(No. E. or W.)

(f) Is water to be returned to any stream? (Yes or No)

(Yes or No)

(g) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.

(No. N. or S.)

(No. E. or W.)

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

10. (a) To supply the city of _____

County, having a present population of _____

(Name of)

and an estimated population of _____ in 19____

(b) If for domestic use state number of families to be supplied _____

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$100.00 PER ACRE.

12. Construction work will begin on or before June 1, 1962

13. Construction work will be completed on or before June 1, 1967

14. The water will be completely applied to the proposed use on or before June 1, 1967, intend on putting in 20 acres per year until all land is under irrigation.

J M Correa
John M. Correa (Signature of applicant)

J.M. Correa

Remarks: The area indicated on the map is a very wet and swampy ground. We are in the process now of digging a half mile of drain ditch and are picking up a considerable amount of water. This is the water we would like to use for irrigating purposes. Also plan on digging another mile of drain ditch which will consist of deepening some of the present inadequate draining ditch and digging some new ditch within the next two years, and this will all empty into our present source.

John M. Correa
Application for Permit to appropriate the Public Waters of the State of Oregon.

Canal System or Pipe Lines:

(7) The irrigation ditches will be made as land is put in and will be made of sufficient size to handle the amount of water which will be pumped.

STATE . OREGON, }
County Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19____

WITNESS my hand this _____ day of _____, 19____

STATE ENGINEER

By _____ ASSISTANT

PERMIT

STATE OF OREGON,

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same. SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 2.05 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from unnamed drain ditch

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 450 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be further limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is May 4, 1962

Actual construction work shall begin on or before July 26, 1963 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1964

Complete application of the water to the proposed use shall be made on or before October 1, 1965

WITNESS my hand this 26 day of July 1962
