Remarks: The attached map shows the pond, the source of the pond and the outlet of the pond. In the summertime there is no outlet as the water seeps into the ground. Applicant only desires water right to the full use of the spring as this is necessary to keep the pond level. Applicant is turning same into a trout farm. Applicant realizes that the water right does not grant him permission to go on the pond portion on premises other than his own, but only gives him right to use the water therefrom. Applicant intends to lease said additional area in connection with trout farm. The stream flows through applicants property as described which stream originates principally in the NE¹/₄NW¹/₄ S. 14, T. 22 S. R 6 W. W.M., said stream originates to some extent north and northeast of this area also. Several springs from hills flow into stream.

Not for household use. 500 - 500 Trout

PERMIT

STATE OF OREGON, }
County of Marion, }

This is to certify that I have examined the foregoing application and do hereby grant the same. SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.21 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from an unnamed stream and reservoir.

The use to which this water is to be applied is irrigation and maintenance of a reservoir to be constructed under application No. R-37687, permit No. R-2991 ; being 0.03 cfs for irrigation and 0.18 c.f.s. for maintenance of reservoir for fish culture.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated from direct flow and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year from direct flow and storage from reservoir to be constructed under permit No. R-2991 ; provided further that the right to use of direct flow is limited to the period when the flow of the Umpqua River is more than 525 c.f.s. at tidewater.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is March 22, 1962

Actual construction work shall begin on or before September 5, 1963 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1964.

Complete application of the water to the proposed use shall be made on or before October 1, 1965.
