

RECEIVED
STATE ENGINEER
CORVALLIS, OREGON

APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, Corvallis Sand & Gravel Company
(Name of applicant)

of P. O. Box 691, Corvallis
(Mailing address)

State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation
April 26, 1915, Corvallis, Oregon

1. The source of the proposed appropriation is Willamette River
(Name of stream)
a tributary of _____

2. The amount of water which the applicant intends to apply to beneficial use is 10
cubic feet per second.
(If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is Manufacturing - operation of a concrete batching plant, asphalt plant, and sand and gravel production plant.
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 1,500 ft. North and 860 ft. West from the common corner of Sections 1, 2, 11, 12, all in Township 12 South, Range 5 West of the Willamette Meridian, County of Benton. This pump can also be located 855 feet on a bearing N 28° W from the Southeast corner of the J. C. Avery D.L.C.
(Section or subdivision)
(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)
being within the NE 1/4 of the SE 1/4 of Sec. 2, Tp. 12 South, R. 5 West, W. M., in the county of Benton.
(Give smallest legal subdivision) (N. or S.)
(E. or W.)

5. The two pipe lines to be 1000 feet in length, terminating in the SE 1/4 section of Sec. 2, Tp. 12 South, R. 5 West, W. M., the proposed location being shown throughout on the accompanying map.
(Main ditch, canal or pipe line) (Miles or feet)
(Smallest legal subdivision) (N. or S.)
(E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam _____ feet, length on top _____ feet, length at bottom _____ feet; material to be used and character of construction _____
(Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate _____
(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description _____
(Size and type of pump)
(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

*A different form of application is provided where storage works are contemplated.
**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 1,000 ft.; size at intake, 6 in.; size at ft. from intake in.; size at place of use 6 in.; difference in elevation between intake and place of use, 20 ft. Is grade uniform? Yes Estimated capacity, 10 sec. ft. - Two similar pipe lines

8. Location of area to be irrigated, or place of use South Corvallis, Benton County

Township North or South	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
Beginning at a certain point called the initial point, being in the center of the 40 foot wide County Road as now located, and known as the Fischer or Crystal Lake Cemetary Road where the same now crosses the S. line of the property of the Fischer Bros. Milling Company, also being the South line of the Joseph C. Avery D.L.C. and the North line of the Joseph C. Alexander DLC; thence East along the North line of the said Joseph C. Alexander DLC or an easterly extension thereof, 1932 feet to a point on the present right bank of the Willamette River, facing down stream; thence Northwesterly down stream and along the right bank of the Willamette River to a point in the center of the old channel of said river; thence South 45° 0' West to the intersection with a line running South 80° 07' East from a certain Balm tree hereinafter described; thence North 80° 07' West down stream to a Balm tree on the South bank of the Willamette River and herein before referred to. (Said tree being located as follows: Beginning at the initial point of property herein described; thence running West along the South line of the Joseph C. Avery DLC 116 feet; thence North 24° 08' West 900 feet to an iron rod; thence North 40 feet to said Balm tree); thence from said Balm tree South 40 feet; thence South 24° 08' East 900 feet to the South line of said Joseph C. Avery DLC; thence East following the South line of the said Joseph C. Avery DLC 116 feet to the initial point and place of beginning.				
12 S	5 W	2	NE ¹ SE ¹ and SE ¹ SE ¹	Industrial
			SW ¹ SE ¹	Industrial

(If more space required, attach separate sheet)

(a) Character of soil
 (b) Kind of crops raised

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.
(Head)

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.
(Legal subdivision)

Tp., R., W. M.
(No. N or S.) (No. E or W.)

(f) Is water to be returned to any stream?
(Yes or No)

(g) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.
(No. N or S.) (No. E or W.)

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

10. (a) To supply the city of

County, having a present population of

and an estimated population of in 19.....

(b) If for domestic use state number of families to be supplied.....

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$.....

12. Construction work will begin on or before

13. Construction work will be completed on or before

14. The water will be completely applied to the proposed use on or before now in use.....

CORVALLIS SAND & GRAVEL CO.

John H. Gallagher, Jr. President

Remarks:

It is understood that this application and subsequent permit will not in any way, waive any of our rights to the use of water from the Willamette River. We have been operating in Corvallis and using the water from the Willamette River since 1911. This property was purchased from Fischer Bros. Milling Company who used water many years prior to 1909.

STATE OF OREGON,

County of Marion,

ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion.....

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before June 19, 1962.....

WITNESS my hand this 19th day of April, 1962.....

RECEIVED SEP - 4 1962

STATE ENGINEER SALEM, OREGON

LEWIS A. STANLEY STATE ENGINEER

ASSISTANT

PERMIT

STATE OF OREGON,

County of Marion,

} ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 10.0 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Willamette River

The use to which this water is to be applied is industrial

If for irrigation, this appropriation shall be limited to - - of one cubic foot per second or its equivalent for each acre irrigated

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is September 4, 1962

Actual construction work shall begin on or before October 22, 1963 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1964

Complete application of the water to the proposed use shall be made on or before October 1, 1965

WITNESS my hand this 22nd day of October, 1962

Chris L. Minkler
