APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Oregon

I, Arthur H. Winters (Name of applicant)
of George Fox College, Newberg, Oregon (Mailing address)
State of Oregon, do hereby make application for a permit to appropriate the
following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is unnamed stream (Name of stream)
a tributary of Chehalem Creek
2. The amount of water which the applicant intends to apply to beneficial use is 101
cubic feet per second. less than one cubic foot per second (If water is to be used from more than one source, give quantity from each)
3. The use to which the water is to be applied is stock and irrigation (Irrigation, power, mining, manufacturing, domestic supplies, etc.)
4. The point of diversion is located 470 ft. N and 156 ft. W from the SW
corner of Section 14 in Township 3 South Range No. 3
West. The tax record identifies the location in Sec. 13 - T 3 S; R 3 W
(Please refer to section entitled "remarks" and the enclosed graph)

(If preferable, give distance and bearing to section corner)

- (If there is more than one point of diversion, each must be described. Use separate sheet if necessary)
- being within the SE 1/4 of Sec. 13, Tp. 3-S,
(Give smallest legal subdivision) (N. or S.)
R. 3 W, W. M., in the county of Yamhill (E. or W.)
5. The _____ to be _____
(Main ditch, canal or pipe line) (Miles or feet)
in length, terminating in the _____ of Sec. _____, Tp. _____
(Smallest legal subdivision) (N. or S.)
R. _____, W. M., the proposed location being shown throughout on the accompanying map.
(E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam None feet, length on top None feet, length at bottom
None feet; material to be used and character of construction No construction--spring
(Loose rock, concrete, masonry)
runs in its natural channel.
(rock and brush, timber crib, etc., wasteway over or around dam)
- (b) Description of headgate None (Timber, concrete, etc., number and size of openings)
- (c) If water is to be pumped give general description 1/2 h.p. motor; 3/4 in. outlet
(Size and type of pump)
(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$ No cost12. Construction work will begin on or before No construction13. Construction work will be completed on or before No construction14. The water will be completely applied to the proposed use on or before Immediately

x

A. H. Winters

(Signature of applicant)

Remarks: This spring is located at the junction of the old Newberg-Yamhill highway and the new Newberg-Yamhill highway where the Hess Road (sometimes called the North Valley Road) intersects the highway. The accompanying graph or map shows that the spring lies between the two highways and about 50 feet north of the culvert under the highway, which has its exit on my property.

The water from the spring enters no other property before entering the culvert and thus directly on to my land. It empties into Chehalem Creek about 500 feet from the source of the spring.

The water from this spring is a source of water supply for my stock and also used for sprinkling my garden and berries. The spring runs approximately 9 or 10 months out of each year.

The loss of this water supply, though limited in amount, would materially reduce the value of my property.

STATE OF OREGON,

County of Marion,

} ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19____.

WITNESS my hand this _____ day of _____, 19____.

STATE ENGINEER

By _____

ASSISTANT

PERMIT

STATE OF OREGON,

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed .01 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from an unnamed stream

The use to which this water is to be applied is stock and irrigation; being 1/2 for each.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is August 2, 1962

Actual construction work shall begin on or before October 22, 1963 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1964.

Complete application of the water to the proposed use shall be made on or before October 1, 1965.

WITNESS my hand this 22nd day of October, 1962

Chris L. Wheeler
