Remarks: In the dry summer months all of the water from this small ~~Spring~~ ^{Stream} is used strictly for domestic use (no watering of lawns etc.) Its total flow is about what would flow through a one half (1/2") inch pipe. After fall rains start there is plenty of water for everyone plus medium amount of overflow.

There is no dam in use at the present time & has not been in the past twelve years, the pickup consists of a 22 ft length of 2 inch pipe cased with screen & embedded in a natural pool & leading to a 500 gal. wood tank separate line 3/4" in dia. lead from tank to houses
