STATE ENGINEER
SALEM, OREGON

*APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Oregon

I, Alonso Polts

(Name of applicant)

of Rt. 1, Box 5, Hubbard, Oregon

State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Canyon Creek

(Name of stream)

, a tributary of M' Creek and Molalla River

2. The amount of water which the applicant intends to apply to beneficial use is 0 gal. per min.

Water to be used

(If water is to be used from more than one source, give quantity from each)

3. The use to which the water is to be applied is Domestic and operation of mill.

(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 1693 ft. west and 1962 ft. north from the S. E. corner of section 10

(N. or S.)

(E. or W.)

(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the N. W. $\frac{1}{4}$ of the S. E. $\frac{1}{4}$ of Sec. 10, Typ. E. S.

(N. or S.)

R. 3 E., W. M., in the county of Clackamas

(E. or W.)

5. The pipe line to be 1352 ft.

(Cable ditch, canal or pipe line)

(Miles or feet)

in length, terminating in the N. E. $\frac{1}{4}$ of the S. E. $\frac{1}{4}$ of Sec. 10, Typ. S. S.

(N. or S.)

R. 3 E., W. M., the proposed location being shown throughout on the accompanying map.

Diversion Works—

DESCRIPTION OF WORKS

6. (a) Height of dam 3 feet, length on top 20 feet, length at bottom

20 feet; material to be used and character of construction loose rock

(Loose rock, concrete, masonry, rock and brush, timber crib, etc., whatever over or around dam)

(b) Description of headgate N.O.S.

(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description Ram, l. in. supply $\frac{1}{2}$ in.

(Size and type of pump)

discharge.

(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be used, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 1352 ft.; size at intake, 1 $\frac{1}{4}$ in.; size at 230 ft. from intake 1 in.; size at place of use $\frac{3}{4}$ in.; difference in elevation between intake and place of use, 140 ft. Is grade uniform? No. Estimated capacity, 1 gal. per minute###
 8 Location of area to be irrigated, or place of use _____

8. Location of area to be irrigated, or place of use

(If more space required, attach separate sheet)

(a) Character of soil

(b) Kind of crops raised

Power or Mining Purposes—

9. (a) Total amount of power to be developed 227 theoretical horsepower.

(b) Quantity of water to be used for power 5 gal. ~~5 gal.~~ per min.

(c) Total fall to be utilized 15 feet.

(d) The nature of the works by means of which the power is to be developed Hydraulic ram.

(e) Such works to be located in N.W. $\frac{1}{4}$ of the S.W. $\frac{1}{4}$ of Sec. 10, (Local subdivision)

Tp. 5 S. , R. 3 E. W. M.
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream? Yes. (Yes or No)

(g) If so, name stream and locate point of return ... Canyon Creek

N.W. $\frac{1}{4}$ of S.E. $\frac{1}{4}$, Sec. 10, Tp. 5 S., R. 3 E., W.M.

(h) The use to which power is to be applied is ...Pump domestic water

(i) The nature of the mines to be served.

12. (a) To supply the city of

County, having a present population of

(Leave off)

and an estimated population of in 19.....

(b) If for domestic use state number of families to be supplied one

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$ 250. 00

12. Construction work will begin on or before 9/10/62

13. Construction work will be completed on or before 9/15/62

14. The water will be completely applied to the proposed use on or before 9/15/62

Along 1st

(Signature of applicant)

DESCRIPTION OF PROPERTY

Remarks: The Northwest quarter of the Southeast quarter and the Northeast quarter of the southwest quarter of section 10, T.5.S.R.3.E. of the W.M., together with an easement for road purposes, running west 20 feet of the southwest quarter of the Northeast quarter of said section 10, as conveyed in deed from Oscar J. Lindlef and Hilda A. Lindlef recorded Feb. 15, 1927 in book 197 at page 313, deed records of Clackamas County excepting that part of the premises above described lying to the west of the county road, which said property excepted hereinfrom contains 20 acres, more or less. And except the following: Beginning at a point on the center line of County Road #1027, which is 463.2 feet southeast of the center line from the intersection of the center line of County Road #1027, with west line of the northeast quarter of the southwest quarter of section 10, T.5.S.R.3.E. of W.M., from said beginning point running thence northwesterly along center line of said road 463.2 feet to the west line of the northeast quarter of the southwest quarter of said section 10; thence north along said west line 424.0 feet, more or less to the northwest corner of the northeast quarter or the southwest quarter of said section 10, thence east along the center line 294.00 feet, more or less to the center line of Canyon Creek creek; thence following center line of Canyon Creek upstream in a southeasterly direction 531.5 feet to a point; thence southwesterly in a straight line 314.2 feet, more or less to the place of beginning.

And except that part conveyed to Charles Olsen and Aista Olsen, his wife, by deed recorded Feb. 4, 1944 in book 320 at page 247.

STATE OF OREGON, {
County of Marion, { ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before , 19.....

WITNESS my hand this day of , 19

STATE ENGINEER

By

ASSISTANT

PERMIT

STATE OF OREGON,
County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same,
SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use
and shall not exceed measured at the point of diversion from the
stream, or its equivalent in case of rotation with other water users, from Canyon Creek

The use to which this water is to be applied is domestic use of one family and operation
of hydraulic ram; being 1 gal. per min. for domestic and 5 gal. per min. for
operation of ram.

If for irrigation, this appropriation shall be limited to of one cubic foot per
second or its equivalent for each acre irrigated

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is September 11, 1962

Actual construction work shall begin on or before December 14, 1963 and shall
thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1964.

Complete application of the water to the proposed use shall be made on or before October 1, 1965.

WITNESS my hand this 14th day of December, 1962.

John L. Schuler
STATE ENGINEER
