STATE ENGINEER

*APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

We, R. A. Brogotti and Marian Brogotti, and H. J. Sandberg
(Name of applicant) Portland,
of Brogotti's address is R. F. D., La Grande, Oregon; Sandberg's address is 1100 S.W. Myrtle Drive,
(Mailing address)
State of Oregon, do hereby make application for a permit to appropriate the

following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is the municipal sanitary sewer system of the City
of La Grande which drains into Gekeler Slough (Name of stream), a tributary of Catherine Creek.

2. The amount of water which the applicant intends to apply to beneficial use is 27
cubic feet per second.
(If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is irrigation.
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 682.5 ft. E and 10 ft. N from the southwest
corner of Section 23, Township 3 South, Range 38 E. W. M. (E. or W.)
Water will be diverted by means of portable pumps and sprinkler systems at any point
along Gekeler Slough as it traverses the property to be irrigated. The upstream extremity of diversion
is located 2,112 feet north of the southwest corner of the Southwest quarter of Section 25, Township
3 South, Range 38 East W. M., and the downstream extremity being located 60 feet south of the
northeast corner of the Northwest quarter of Section 30, Township 3 South, Range 39 East W. M.
(If preferable, give distance and bearing to section corner)
(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the southwest quarter of southwest quarter of Sec. 23, Tp. 3 S,
R. 38 E, W. M., in the county of Union (see remarks)
(Give smallest legal subdivision) (N. or S.)
(E. or W.)

5. The _____ to be _____
(Main ditch, canal or pipe line) (Miles or feet)
in length, terminating in the _____ of Sec. _____, Tp. _____,
(Smallest legal subdivision) (N. or S.)
R. _____, W. M., the proposed location being shown throughout on the accompanying map.
(E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam _____ feet, length on top _____ feet, length at bottom
_____ feet; material to be used and character of construction _____
(Loose rock, concrete, masonry,
rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate _____
(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description Centrifugal pumps powered by diesel
engine of appropriate size and capacity. Present equipment includes 1200 gallon per minute
centrifugal pump, powered by Allis Chalmers diesel engine. It is possible that electrical power
may be used in the future.
(Size and type of pump)
(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

*A different form of application is provided where storage works are contemplated.
**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the
Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem,
Oregon.

ORIGINAL
36-55

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe ft.; size at intake, in.; size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use ft. Is grade uniform? Estimated capacity, sec. ft.

8. Location of area to be irrigated, or place of use

x Marion Brogetti

x H. Lundberg P.L.B.

Remarks:

Remarks: This application is intended to be for an appropriation supplemental to any existing rights and to applications numbered 37046 and 37047 made by the applicants herein.

The municipal sanitary system of the City of La Grande ends at oxidation ponds located in the southwest quarter of the Section 23, Township 3 South, Range 38 E. W. M. Overflow or drainage from these ponds enters Gekeler Slough at a point which is ten feet north and 682.5 ft. East of the southwest corner of Section 23. At this point applicants propose to install a weir or other measuring device for the purpose of measuring the amount of drainage water entering the slough. This water will be diverted from the slough by means of portable pumps and applied by a sprinkler system, the pump to be located along Gekeler Slough as it traverses the property to be irrigated. The upstream extremity of this diversion from Gekeler Slough is located 2,112 feet north of the southwest corner of the southwest quarter of Section 25, Township 3 South, Range 38 East W. M., and the downstream extremity is located 60 feet south of the northeast corner of the northwest quarter of Section 30, Township 3 South, Range 39 East W. M.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before January 28, 1963.

WITNESS my hand this 28 day of November, 1962.

JAN 23 1963
By [Signature] ASSISTANT
CHRIS L. WHEELER STATE ENGINEER

PERMIT

STATE OF OREGON,

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 25.71 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from waste from municipal sanitary sewer system of City of LaGrande

The use to which this water is to be applied is irrigation and supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/40 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year, and shall also be limited to the water available at the proposed point of diversion, and shall not carry with it the right to compel the continuance of the waste water; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is November 7, 1962

Actual construction work shall begin on or before March 15, 1964 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1964.

Complete application of the water to the proposed use shall be made on or before October 1, 1965.

WITNESS my hand this 15th day of March, 1963.
