, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is South Foster Spring and Reservoirs

(Name of stream)

, a tributary of Summer Lake

2. The amount of water which the applicant intends to apply to beneficial use is .15

cubic feet per second.

(If water is to be used from more than one source, give quantity from each)

3. The use to which the water is to be applied is Wildlife propagation

(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 515.0 ft. S and 146.5 ft. E from the corner of common to Sections 34 and 3

(N. or S.)

(E. or W.)

(Section or subdivision)

The spring is located 390.0 FT. South + 146.5 FT. EAST from the 1/4 corner common to sections 34 + 3.

(Res. #1 - 800 ft S & 900 ft E, being within the NW 1/4 NE 1/4 Sec. 3)

(If preferable, give distance and bearing to section corner)

(Res. #2 - 950 ft S & 1500 ft E, being within the NE 1/4 NE 1/4 Sec. 3)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

Spring being within the NW 1/4 of the NE 1/4 of Sec. 3, Tp. 31 S,

(Give smallest legal subdivision)

(N. or S.)

R. 16 E, W. M., in the county of Lake

(E. or W.)

5. The main ditch to be 660 feet

(Main ditch, canal or pipe line)

(Miles or feet)

in length, terminating in the E 1/4 NW 1/4 of Sec. 3, Tp. 31 S,

(Smallest legal subdivision)

(N. or S.)

R. 16 E, W. M., the proposed location being shown throughout on the accompanying map.

(E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam none feet, length on top feet, length at bottom

feet; material to be used and character of construction

(Loose rock, concrete, masonry,

rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate Metal culvert, screw type metal headgate - 10" diameter

(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description

(Size and type of pump)

(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

\*A different form of application is provided where storage works are contemplated.

\*\*Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) 2 feet; width on bottom 2 feet; depth of water .5 feet; grade 3.5 feet fall per one thousand feet.

(b) At 1/8 miles from headgate: width on top (at water line) 2 feet; width on bottom 2 feet; depth of water .5 feet; grade 3.5 feet fall per one thousand feet.

(c) Length of pipe. ft.; size at intake, in.; size at from intake in.; size at place of use in.; difference in elevation between intake and place of use. ft. Is grade uniform? Estimated capacity, sec. ft.

8. Location of area to be irrigated, or place of use NW 1/4 NE 1/4 and NE 1/4 NE 1/4

Township North or South	Range E. or W. of Willamette Meridian	Section	Quarter-acre Tract	Number Acres To Be Irrigated
31 S	16 E	3	NW 1/4 NE 1/4	Pothole storage
31 S	16 E	3	NE 1/4 NE 1/4	Pothole storage

(If more space required, attach separate sheet)

(a) Character of soil Alkali clay  
 (b) Kind of crops raised Wildlife propagation

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.  
 (b) Quantity of water to be used for power sec. ft.  
 (c) Total fall to be utilized feet.  
 (d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec. of

Tp. R. W. M.

(f) Is water to be returned to any stream?  
 (g) If so, name stream and locate point of return

Sec. Tp. R. W. M.

(h) The use to which power is to be applied is  
 (i) The nature of the mines to be served

Municipal or Domestic Supply—

10. (a) To supply the city of .....

County, having a present population of .....

(Name of)

and an estimated population of ..... in 19.....

(b) If for domestic use state number of families to be supplied .....

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$..... Existing .....

12. Construction work will begin on or before Existing .....

13. Construction work will be completed on or before Complete July 1, 1962 .....

14. The water will be completely applied to the proposed use on or before November 1, 1962 .....

*M. J. Wheeler*  
(Signature of Applicant)

Remarks: This spring arises in the Summer Lake Irrigation District ditch and during irrigation season the waters mingle with the irrigation flows. After the irrigation season the spring's flow can be utilized and diverted through the existing metal culvert with headgate, it is planned to utilize this appropriation only during the non-irrigating season. The area management plan calls for maintaining these ponds the year around at desirable levels to promote maximum use by waterfowl. Levels will be maintained under this appropriation during the fall & early winter months to provide resting & feeding areas for waterfowl before & during the hunting season & prior to migration.

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for COMPLETION

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before November 26, 19 2...

WITNESS my hand this 26 day of September, 19 2...

CHRIS L. WHEELER  
STATE ENGINEER  
By *Walter W. ...*  
ASSISTANT

PERMIT

STATE OF OREGON,

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.15 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from South Foster Spring and reservoirs Nos. 1 and 2 to be constructed under application No. R-38010, permit No. R-3204.

The use to which this water is to be applied is wild fowl propagation; provided further that no water may be appropriated during the irrigation season.

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is August 29, 1962

Actual construction work shall begin on or before April 30, 1964 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1965.

Complete application of the water to the proposed use shall be made on or before October 1, 1966.

WITNESS my hand this 30th day of April, 1963

Chris L. Wheeler STATE ENGINEER
