

APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

By BLUE MT. MILLS, an Oregon Corporation

(Name of applicant)

of John Day

(Mailing address)

State of Oregon

do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation incorporated in Oregon January 7, 1948

1. The source of the proposed appropriation is John Day River

(Name of stream)

a tributary of Columbia

2. The amount of water which the applicant intends to apply to beneficial use is one

cubic feet per second.

(If water is to be used from more than one source, give quantity from each)

3. The use to which the water is to be applied is Sawmill log pond

(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 1120 ft. N. and 1730 ft. W. from the SE

(N. or S.)

(E. or W.)

corner of Section 22

(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the ~~SW 1/4~~ NE SW 1/4 of Sec. 22, Tp. 13 S

(Give quadrant legal subdivision)

(N. or S.)

R. 31 E., W. M., in the county of Grant

5. The water flows and is filtered 1325 feet

(Main ditch, canal or pipe line)

(Miles or feet)

in length, terminating in the SW 1/4 of Sec. 22, Tp. 13 S

(Smallest legal subdivision)

(N. or S.)

R. 31 E., W. M., the proposed location being shown throughout on the accompanying map.

(E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam two feet, length on top 85 feet, length at bottom

85 feet; material to be used and character of construction gravel

(Loose rock, concrete, masonry,

rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate metal track

(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description flows 1325 feet through to

(Size and type of pump)

mill ponds where it drains back into John Day River less evaporation.

(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

8. Location of area to be irrigated, or place of use

Township North or South	Range E. or W. of Wisconsin Meridian	Section	Part-acre Tract	Number Acres To Be Irrigated
13 S.	31 E.	22	SE $\frac{1}{2}$ SW $\frac{1}{2}$	1.5 <i>Area Submerged</i>
13 S.	31 E.	22	SW $\frac{1}{2}$ SE $\frac{1}{2}$	1.4 <i>Area Submerged</i>
				<i>For Log Pond Maintenance</i>

(If more space required, attach separate sheet)

(a) Character of soil Tailings

(b) Kind of crops raised Not applicable

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.

Tp., R., W. M.

(f) Is water to be returned to any stream? (Yes or No)

(g) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

Municipal or Domestic Supply

10. (a) To supply the city of _____

County, having a present population of _____

and an estimated population of _____ in 19_____

(b) If for domestic use state number of families to be supplied _____

(Answer questions 11, 12, 13, and 14 in all cases)

- 11. Estimated cost of proposed works, \$ _____
- 12. Construction work will begin on or before Completed
- 13. Construction work will be completed on or before Completed
- 14. The water will be completely applied to the proposed use on or before New in Use

BLUE MOUNTAIN MILLS

By: L.P. Meyer
General Manager

Remarks:

Water diverted from John Day River flows into dredge pond and then filters through tailings into and through mill ponds and back into John Day River. A large per cent of water filters back to John Day River prior to reaching mill ponds.

STATE OF OREGON, } ss.

County of Marion, }

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before March 18, 19 63.

WITNESS my hand this 17th day of January, 19 63.

PERMIT

STATE OF OREGON,

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.0 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from John Day River and San Juan Lumber Company Pond No. 1 to be constructed under application No. R-38798, permit No. R-3287.

The use to which this water is to be applied is maintenance of log pond. The right to use of direct flow is limited to the period when the flow of the John Day River is more than 30 c.f.s. at USGS Gage No. 14-0465 and more than 20 c.f.s. at USGS Gage No. 14-0480.

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is July 23, 1963

Actual construction work shall begin on or before August 9, 1964 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1965.

Complete application of the water to the proposed use shall be made on or before October 1, 1966.

WITNESS my hand this 9th day of August, 1963.

Chris L. Wheeler STATE ENGINEER
