Remarks: The water from the spring is applied directly to the 2.8 acres in the
S&W and ditched to Woodcock Trench which has been constructed to capture waste
water from irrigation of lands above and then pumped to the Reservoir which is
used as a redistribution point after release of the stored water. Woodcock Trench
is on the applicant's property and wholly under his control. Some of the waste
water collected is reapplied to the same lands from which it is collected.
