Remarks: This application is for permit to cover existing uses in sawmill and Plywood plant plus expansion to include a new particle-board plant. Water from the South Umpqua is pumped to a tank from which it is re-pumped throughout the plant and into two reservoirs of 2,500,000 gal. and 1,250,000 gal. capacity. These reservoirs provide a fire-protection water supply and a standby reserve for industrial use. Uses include processing of timber products, condenser cooling and boiler make-up water.
