(Signature of applicant)

Remarks: As we have only single phase power at the present, I am using a 1/2 hp motor, 4" mainline & 12 to 15 lbs 8 gpm sprinkles. I believe we will have 3 phase power in 2 or possibly 3 years then I intend to install a larger motor, possibly larger mainline and 15 to 20 additional sprinkles.

As you can see by the above charge I have been trying to get a workable irrigation system for the past 2 years. Trouble with first pump & then motor have delayed me. However I now have a fairly complete system and will expand it as time & money permit.
