STATE ENGINEER
SALEM OREGON

Permit No. 30292

*APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Oregon

I, JAMES L. BROWN

(Name of applicant)

of 1407 Esplanade Street, Klamath Falls, Oregon
(Mailing address)

State of OREGON, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation _____

1. The source of the proposed appropriation is A spring

(Name of stream)

, a tributary of Willamette River. (does not reach it)

2. The amount of water which the applicant intends to apply to beneficial use is .02 cubic feet per second.

(If water is to be used from more than one source, give quantity from each)

3. The use to which the water is to be applied is Domestic, oil and stock, oil
(irrigation, power, mining, manufacturing, domestic supplies, etc.)
(two buildings, barns and corrals also have water tanks, approx. 500 head cattle.)

4. The point of diversion is located 100 ft. North and 100 ft. West from the SW
(N. or S.) (E. or W.)

corner of SW 1/4 of NW 1/4 of Section 18, Township 30 South, Range 11 East of Willamette
(Section or subdivision)
Meridian.

(If preliminary, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the SW 1/4, NW 1/4 of NW 1/4 of Sec. 18, Tp. 30 South, (N. or S.)
(Give smallest legal subdivision)

R. 11 E., W. M., in the county of Klamath

installed in the year of 1929, and is 5 inches thick, cast iron pipe line.

5. The 2 1/2 inch pipe line from reservoir was / to be .001 mile in length
(Give date, name or pipe line)

in length, terminating in the NE 1/4 of SW 1/4 of Sec. 13, Tp. 30 South, (N. or S.)
(Smallest legal subdivision)

R. 10 East, W. M., the proposed location being shown throughout on the accompanying map.
(E. or W.)

DESCRIPTION OF WORKS

Diversion Works

6. (a) Height of dam 10 feet, length on top 10 feet, length at bottom

10 feet; material to be used and character of construction Sides are fir plank 4" X 12"
(Lime rock, concrete, masonry, rock and brush, timber crib, etc., watershed over or around dam)
Roof is 1 inch sheeting with mineralized paper roofing (asphalt roofing)

(b) Description of headgate 2 1/2 inch water valve

(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description

(Size and type of pump)

(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

*A different form of application is provided where storage works are contemplated.

30292

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) 10 feet; width on bottom 10 feet; depth of water five feet; grade 30 feet fall per one thousand feet.
- (b) At .02 miles from headgate: width on top (at water line) Pipe line is 2½ inches in diameter; feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.
- (c) Length of pipe, One mile ft.; size at intake, 2½ in.; size at one mile ft. from intake 2½ inch in.; size at place of use 2½ inch in.; difference in elevation between intake and place of use, 150 feet ft. Is grade uniform? No Estimated capacity, 20. - 30 gal. /gals. per minute.
8. Location of area to be irrigated, or place of use home ranch NE 1/4 S. 13 T. 30 S. R. 10 E.W.M.

Township North or South	Range E. or W. of Wilkesboro Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
30 S.	10 E.	13	NE 1/4 SEC	Domestic
30 S.	10 E.	13	NE 1/4 SEC	Stock

(If more space required, attach separate sheet)

(a) Character of soil pumice

(b) Kind of crops raised pasture

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.
- (b) Quantity of water to be used for power sec. ft.
- (c) Total fall to be utilized feet.
- (d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in _____ of Sec. _____
(Legal subdivision)Tp. _____, R. _____, W. M.
(No. N. or S.) (No. E. or W.)(f) Is water to be returned to any stream? _____
(Yes or No)

(g) If so, name stream and locate point of return _____

Sec. _____, Tp. _____, R. _____, W. M.
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is _____

(i) The nature of the mines to be served _____

Municipal or Domestic Supply—

30292

M. (a) To supply the city of two houses, barns and corrals.

Klamath County, having a present population of
and an estimated population of in 19—

(b) If for domestic use state number of families to be supplied two, plus stock water.

Answer question 11, 12, 13, and 14 in columns

11. Estimated cost of proposed works, \$10,000.00 was installed in year of 1929

12. Construction work will begin on or before completed in 1929

13. Construction work will be completed on or before completed

14. The water will be completely applied to the proposed use on or before Nov. in use and has been since year of 1929

Ezra R. Dennis

(Signature of applicant)

Remarks: This domestic water supply for our ranch has been in continuous use ever since it was installed in the year of 1929. It is buried deep and pipe line has never frozen in winter, and we have watered up to 500 head of cattle from it during the winter.

We may soon have to rebuild the reservoir, as the planks rot out, and will probably concrete the side walls this time.

STATE OF OREGON, {
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before , 19—

WITNESS my hand this day of , 19—

STATE ENGINEER

By ASSISTANT

PERMIT

STATE OF OREGON,
County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same,
SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use
and shall not exceed 0.02 cubic feet per second measured at the point of diversion from the
stream, or its equivalent in case of rotation with other water users, from a spring.

The use to which this water is to be applied is domestic use of two families and stock;
being 0.01 c.f.s. for domestic and 0.01 c.f.s. for stock.

If for irrigation, this appropriation shall be limited to - - - of one cubic foot per
second or its equivalent for each acre irrigated - - -

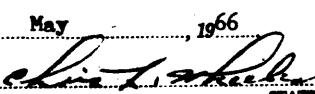

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is March 5, 1965

Actual construction work shall begin on or before May 20, 1966 and shall
thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1967.

Complete application of the water to the proposed use shall be made on or before October 1, 1968.

WITNESS my hand this 20 day of May, 1966

STATE ENGINEER
