(Signature of applicant)

Remarks: The City of Oceanlake, acting on a 1960 report of Caufield & Caufield Consulting Engineers, is enlarging the supply facilities from Rock Creek to the City. The City holds a water right for 1.5 sec. ft. but feels it can utilize another 0.73 sec. ft. in the near future. Our present supply system delivers 0.95 sec. ft. and we have .57 million gallon of storage. This system is severely taxed at present during peak demand periods. Our new installation has a capacity of 2.23 sec. ft., hence this application for an additional 0.73 sec. ft.
