

\*APPLICATION FOR PERMIT

To appropriate the Public Waters of the State of Oregon

I, William E. Wilbert (Name of applicant)

of Agate Beach, Oregon (Mailing address)

State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Moolack Creek (Name of stream)

tributary of to Pacific Ocean

2. The amount of water which the applicant intends to apply to beneficial use is 1.3

cubic feet per second. (If water is to be used from more than one source, give quantity from each)

\*\*3. The use to which the water is to be applied is Domestic supplies including

Irrigation of 1/2 acre lawn & garden (Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located 1977.70 ft. N and 1803.40 ft. W from the S.E. corner of

Section 17, T10S R11W of the Will. Mer. Lincoln County Oregon (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the NW 1/4 of SE 1/4 of Sec. 17, Tp. 10 S, R. 11 W, W. M., in the county of Lincoln

5. The Pipe Line to be 1240 ft. in length, terminating in the Gov Lot 3 of Sec. 17, Tp. 10 S, R. 11 W, W. M., the proposed location being shown throughout on the accompanying map.

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam 1' feet, length on top 4' feet, length at bottom 4' feet; material to be used and character of construction Timber

rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate Timber (Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description 1 H.P. Multi-stage Pump (Size and type of pump)

(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

\*A different form of application is provided where storage works are contemplated.

\*\*Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

30707

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, 1250 ft.; size at intake, 1" in.; size at ..... ft. from intake ..... in.; size at place of use 1" in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

8. Location of area to be irrigated, or place of use .....

| Township North or South | Range E. or W. of Willamette Meridian | Section | Forty-acre Tract | Number Acres To Be Irrigated          |
|-------------------------|---------------------------------------|---------|------------------|---------------------------------------|
| 105                     | 11 W                                  | 17      | NE 1/4 + SW 1/4  | domestic incl. 1/2 acre lawn + garden |
|                         |                                       |         |                  |                                       |
|                         |                                       |         |                  |                                       |
|                         |                                       |         |                  |                                       |
|                         |                                       |         |                  |                                       |
|                         |                                       |         |                  |                                       |
|                         |                                       |         |                  |                                       |
|                         |                                       |         |                  |                                       |
|                         |                                       |         |                  |                                       |
|                         |                                       |         |                  |                                       |
|                         |                                       |         |                  |                                       |
|                         |                                       |         |                  |                                       |
|                         |                                       |         |                  |                                       |
|                         |                                       |         |                  |                                       |
|                         |                                       |         |                  |                                       |
|                         |                                       |         |                  |                                       |

(If more space required, attach separate sheet)

(a) Character of soil .....

(b) Kind of crops raised .....

Power or Mining Purposes—

9. (a) Total amount of power to be developed ..... theoretical horsepower.

(b) Quantity of water to be used for power ..... sec. ft.

(c) Total fall to be utilized ..... feet.  
(Head)

(d) The nature of the works by means of which the power is to be developed .....

(e) Such works to be located in ..... of Sec. ....  
(Legal subdivision)

Tp. ...., R. ...., W. M. ....  
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream? .....  
(Yes or No)

(g) If so, name stream and locate point of return .....

....., Sec. ...., Tp. ...., R. ...., W. M. ....  
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is .....

10. (a) To supply the city of .....

(Name of) County, having a present population of .....

and an estimated population of ..... in 19.....

(b) If for domestic use state number of families to be supplied ..... 26

(Answer questions 11, 12, 13, and 14 in all cases)

11. Estimated cost of proposed works, \$ 1,100.00.....

12. Construction work will begin on or before ..... upon Approval of application.....

13. Construction work will be completed on or before Feb 1, 1966.....

14. The water will be completely applied to the proposed use on or before Aug 1, 1967.....

William E. Wilkins  
(Signature of applicant)

Remarks: The existing motel together with its addition; my home  
which will be constructed in 1966; two cabin to be constructed in 1967  
and the new motel wing that will be completed in 1967 will be served  
by this water supply.

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for .....

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before ....., 19.....

WITNESS my hand this ..... day of ....., 19.....

STATE ENGINEER

By ..... ASSISTANT

PERMIT

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.05 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Moolack Creek

The use to which this water is to be applied is domestic use of one house and motel, including the irrigation of not to exceed one-half acre of lawn and garden

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is October 20, 1965

Actual construction work shall begin on or before January 17, 1967 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1967. Extended to Oct. 1, 1968

Complete application of the water to the proposed use shall be made on or before October 1, 1968. Extended to Oct. 1, 1969

WITNESS my hand this 17th day of January, 1966
