Remarks: It is anticipated that the pool will be used to transport water taken from the river under Permits No. 29408 and 30,405 to diversion points for the reservoir, and that when no more water can be taken from the river that the water in the reservoir will be used for supplementary irrigation. This shall not be taken to limit the pumping of water from the river to the reservoir only. Where convenient, pumping will be directly to irrigated areas.
