Route # 1, Box 90, The Dalles, Oregon.

Remarks: The land under Permit 5677, Certificate 5095, has been and is still irrigated from excess or waste water from the Wolf Run Ditch, when this water was not needed by the twelve users on the system Wolf Run Water Users. This has been an undependable supply of water, and it is desired by the Applicant to pump water from Eightmile Creek to supplement the irrigation of the 20 acres under Certificate No. 5095, as well as to place an additional 26 acres under irrigation, the latter area being cleared and prepared for the growing of irrigated crops.

All of this is with the realization, that water will be available for this Application, only when there is more than enough flow in Eightmile Creek, to supply the prior water rights.
