*APPLICATION FOR PERMIT

CERTIFICATE NO. 40955
Superseded by: 67119

To Appropriate the Public Waters of the State of Oregon

I, Merton Taylor
(Name of applicant)
of Island City, Oregon
(Mailing address)
State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Grande Ronde River Old Channel with any deficiency made up from the present
(Name of stream)
main channel of the Grande Ronde River of Snake River

2. The amount of water which the applicant intends to apply to beneficial use is 28.7
cubic feet per second.
(If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is Irrigation
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located ft. and ft. from the corner of
(N. or S.) (E. or W.)
See attached map and explanation thereon. Points A, B, C. & D.
(Section or subdivision)
are referenced to common section corner 33 34 T2S, Rge 39 E. W.M.
4 3 T3S, Rge. 39 E. W.M.
From common corner to point A is S18°15' E., 8,300 feet; from common corner
to point B is S29°15' E, 5,550 feet; from common corner to point C is
S 40°45' E., 8,030 feet; from common corner to point D is S38°45' E., 4,190ft
(If preferable, give distance and bearing to section corner)
Continued on attached sheet.

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)
being within the of Sec. , Tp. ,
(Give smallest legal subdivision) (N. or S.)
R. , W. M., in the county of Union
(E. or W.)

5. The proposed ditch to be approximately 2900 feet
(Main ditch, canal or pipe line) (Miles or feet)
in length, terminating in the NW 1 SE 1 of Sec. 10, Tp. 3 South,
(Smallest legal subdivision) (N. or S.)
R. 39 East, W. M., the proposed location being shown throughout on the accompanying map.
(E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam feet, length on top feet, length at bottom
feet; material to be used and character of construction
(Loose rock, concrete, masonry,
rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate
(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description No. 1 Permanent pump. Refer to Permit
No. 28211, dated October 22, 1962. Portable pumps will be used between points A to B;
(Size and type of pump)
points B to C; points B to D in conjunction with portable pipe
(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

*A different form of application is provided where storage works are contemplated.
**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Hydroelectric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem, Oregon.

Canal System or Pipe Line—

31347

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

8. Location of area to be irrigated, or place of use

Township North or South	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
3 South	39 East	4, 9, 10	See attached map	151.40 1045.4
	Detailed on attached sheet.			

(If more space required, attach separate sheet)

(a) Character of soil Moderately deep medium textured soil with moderately slow to moderately rapid permeability.

(b) Kind of crops raised Wheat, barley, peas, alfalfa, seed, hay.

Power or Mining Purposes—

9. (a) Total amount of power to be developed theoretical horsepower.

(b) Quantity of water to be used for power sec. ft.

(c) Total fall to be utilized feet.
(Head)

(d) The nature of the works by means of which the power is to be developed

(e) Such works to be located in of Sec.
(Legal subdivision)

Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(f) Is water to be returned to any stream?
(Yes or No)

(g) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.
(No. N. or S.) (No. E. or W.)

(h) The use to which power is to be applied is

(i) The nature of the mines to be served

Item 8.

PERMIT

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 26.14 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Old Channel Grande Ronde River with any deficiency in the available supply from the Old Channel Grande Ronde River to be made up by appropriation from the Present Channel Grande Ronde River provided that the total quantity diverted from both sources shall not exceed 26.14 c. The use to which this water is to be applied is irrigation.

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is November 12, 1965

Actual construction work shall begin on or before November 7, 1967 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1968.

Complete application of the water to the proposed use shall be made on or before October 1, 1969.

WITNESS my hand this 7th day of November, 1966.
